STAGE UPGRADES: PATH TO PERFORMANCE

	START HERE	CHOOSE FROM BELOW	ADD EVEN MORE POWER	
STAGE	 <p>STAGE I </p> <p>MOVE MORE AIR & FUEL</p> <p>INTAKE + EXHAUST + TUNING UPGRADE = FOUNDATION FOR ALL FUTURE STAGES</p>	 <p>STAGE II </p> <p>GIVE IT A LIFT</p> <p>STAGE I + CAM UPGRADE</p>	 <p>STAGE III </p> <p>PUMP UP THE VOLUME</p> <p>STAGE II + BIG BORE CYLINDERS & PISTONS</p>	 <p>STAGE IV </p> <p>TOP IT OFF</p> <p>STAGE III + CYLINDER HEADS & THROTTLE BODY</p>
BENEFITS	Ideal for riders who want to enhance the performance, look and sound of their motorcycle	<p>TORQUE KIT: Ideal for riders looking for instant passing power at cruising speeds</p> <p>POWER KIT: Ideal for riders who want to feel the power build and pull all the way to the redline</p>	Ideal for riders who want the largest engine displacement and increased power throughout the entire RPM range	Ideal for riders who want the absolute best Harley-Davidson performance upgrade available
BASICS	<ul style="list-style-type: none"> • Most cost-effective step to improve performance and the foundation for future performance upgrades • Match any Screamin' Eagle® high-flow air cleaner and exhaust with the proper ECM calibration to increase the airflow into and out of the engine 	<ul style="list-style-type: none"> • Choose a TORQUE CAM or POWER CAM based on riding style • A performance cam increases both the lift in the valve train (pushing the valve open farther) and the duration of the valve opening (how long the valve stays open) 	<ul style="list-style-type: none"> • An increase in engine displacement allows the engine to swallow more air and fuel, while a higher-compression piston squeezes the air and fuel into a more volatile mixture, generating more power when ignited • Displacement increases are accomplished with larger cylinders, matching pistons and the proper cam upgrade 	<ul style="list-style-type: none"> • Highest-level performance upgrade available to provide a maximum increase in displacement, compression and flow • Higher-flowing CNC ported cylinder heads and larger bore throttle body increase the velocity and feed large volumes of air and fuel into the engine, which maximizes power on a larger displacement engine • Combines ported cylinder heads and larger throttle body in combination with cylinders, matching pistons and proper cam upgrade
PERFORMANCE	 <p>The rider will feel up to a 10%* increase in performance when compared to stock bikes throughout the entire RPM range</p>	 <ul style="list-style-type: none"> • TORQUE KIT: The rider will feel up to a 15%* increase in performance when compared to stock bikes in the low to mid RPM range • Experience crisp throttle response and acceleration that can be felt at slower speeds, perfect for passing slow-moving vehicles without downshifting  <ul style="list-style-type: none"> • POWER KIT: The rider will feel up to a 25%* increase in performance when compared to stock bikes in the mid to upper RPM range • Experience an adrenaline-pumping burst of speed while heading toward the redline 	 <ul style="list-style-type: none"> • Riders will experience a performance increase throughout the entire RPM range, with up to a 35%* increase when compared to stock bikes in the mid to upper RPM range • Produces instant passing power without downshifting • Delivers excellent stoplight to freeway speed and on-ramp acceleration 	 <p>The rider will feel exceptional acceleration, delivering significant gains and up to a 40%* increase when compared to stock bikes in the upper RPM range</p>

AN OVERVIEW OF WARRANTY & CAUTION: Harley-Davidson has the engineering expertise, sophisticated dyno lab and complete testing facilities to provide enthusiasts with a line of performance products designed to produce good, solid, reliable horsepower and torque. Engine-related performance parts are intended for the experienced rider only.

WARRANTY: Installation of Screamin' Eagle products and similar off road or competition products could impact your H-D™ motorcycle limited warranty claims. Specifically, Harley-Davidson may exclude motorcycle limited warranty coverage for defects or damage caused by use of unauthorized parts, including defects or damage caused by use of non-Genuine Harley-Davidson® parts or use of the vehicle for racing or competition, and denial of coverage may be based on installation of parts designed for unauthorized uses of the vehicle, such as a trailer hitch. Additionally, Harley-Davidson shall exclude motorcycle limited warranty coverage and deny all motorcycle limited warranty claims for functional defects of powertrain components for any Harley-Davidson® motorcycle registered in the United States if the vehicle was tuned using a tuning product not covered by a California Air and Resources Board Executive Order or that was otherwise approved by the Environmental Protection Agency, or if Harley-Davidson or any authorized Harley-Davidson® dealer has any information to show that the vehicle was tuned using a tuning product not covered by a California Air and Resources Board Executive Order or that was otherwise approved by the Environmental Protection Agency.

CAUTION ICONS

GO LIGHT: These Screamin' Eagle® products are 50-State U.S. EPA compliant for sale and use on all applicable vehicles, including those that are pollution controlled. See Genuine Motor Parts and Accessories or Screamin' Eagle Accessories catalog for fitment information. Screamin' Eagle Performance products are intended for the experienced rider only.

STOP HAND: Harley-Davidson motorcycles modified with some Screamin' Eagle Performance products must not be used on public roads and, in some cases, may be restricted to closed-course competition. These performance parts are 49-state U.S. EPA compliant but are NOT compliant for sale or use in California on pollution-controlled motor vehicles. California guidelines on tampering can also lead to substantial fines and penalties. Screamin' Eagle® Performance products are intended for the experienced rider only.

CAUTION: Harley-Davidson motorcycles modified with some Screamin' Eagle high-performance engine parts must not be used on public roads and, in some cases, may be restricted to closed-course competition.

CALIFORNIA: These Screamin' Eagle products are street compliant for sale and use on specific vehicles, outlined in the product's fitment statement within the State of California. Screamin' Eagle Performance products are intended for the experienced rider only.

CROSS FLAGS: This product may be intended for race use only applications. It may also be certified for use in a 50-State U.S. EPA compliant application or kit. Use of any incomplete combination of certified kit products may not be legal for sale or use on U.S. market pollution-controlled vehicles and may be restricted to closed course competition use. See Genuine Motor Parts and Accessories or Screamin' Eagle Accessories catalog for compliance, fitment and warranty information. Screamin' Eagle Performance products are intended for the experienced rider only.

DYNAMOMETER (DYNO) PERFORMANCE TESTING: Declared performance values in this catalog represent SAE J-1349 transient peak power output. Dynamometer settings, motorcycle condition, variation, climate and other factors can affect performance output, and results can vary from the performance values declared by Harley-Davidson.

Street-legal and/or street-compliant statements refer to product meeting 50-state emissions and noise standards in the United States. The street legal and/or street compliant statements may not apply to markets outside of the United States.

Not all products are available in all countries — please consult your dealer for details.

*Dynamometer settings, motorcycle condition, variation, climate and other factors can affect performance output, and results can vary from the performance values declared by Harley-Davidson.

TUNING FOR PERFORMANCE

FIRST THINGS FIRST:

You've built your dream pavement-pounding machine by selecting one of the Screamin' Eagle Stage upgrades.

2 Next, the motorcycle Engine Control Module (ECM) needs to be recalibrated. Screamin' Eagle offers base calibrations specifically designed for the performance components on your bike.

3 Tuning adjusts the air-fuel ratio and other parameters based on your performance upgrades.

4 The end result? A properly tuned performance machine that gets the most out of your performance upgrades.

START HERE

PRO STREET TUNER*

- Offers base calibrations for your chosen Screamin' Eagle Stage upgrade
- Constantly monitors the engine operation in the Part-Throttle Cruising Range
- Enables manual adjustments to fine-tune parameters within part- and full-throttle ranges*

(*may not be available in all markets)

WANT MORE?

SMART TUNE PRO

- Uses the Pro Street Tuner base calibrations as a starting point
- Constantly monitors the engine operation and riding conditions in the Complete Motorcycle Operating Range
- Automatically adjusts tuning parameters in real time within the Complete Motorcycle Operating Range

THE HOW

- 1 Load base calibration
- 2 All done; go ride or **manually** adjust with Dyno tuning or Smart Tune Live

THE WHAT

COMPLETE MOTORCYCLE OPERATING RANGE

COMPLETE MOTORCYCLE OPERATING RANGE

THE BENEFIT

MANUAL ADJUSTMENT FOR
Maximum Performance + Optimal Efficiency
for your bike

AUTOMATIC ADJUSTMENT FOR
Maximum Performance + Optimal Efficiency
+ Automatic Adjustment for your bike in all riding conditions and combinations of performance upgrades

SCREAMIN' EAGLE® PRO STREET TUNER

A. SCREAMIN' EAGLE PRO STREET TUNER

Next generation performance tuning made even easier. Now with a wireless and wired option, the new Screamin' Eagle Pro Street Tuner maximizes performance while being 49-state emissions compliant. The Screamin' Eagle Pro Street Tuner is designed to simplify management of engine operating parameters as performance modifications are made. Once installed, the tuner allows you to adjust key parameters or simply upload the latest Engine Control Module (ECM) calibrations to match your bike's state-of-tune. Start with a high-flow air cleaner and Street Performance mufflers and upload the calibration that provides the best performance mix. Add additional Stage upgrades later, and you simply upload the proper ECM calibration to match the model and hardware. With the all-new Screamin' Eagle Street Tuner mobile app, you'll have free online access to the latest factory calibrations via your smartphone. Ideal for real-world street performance applications, the Pro Street Tuner provides the adjustability to account for bike-to-bike variation and when upgrading through various Stage kits, all while maintaining closed-loop fuel control for fuel economy in the part-throttle operating range. Unlike other aftermarket tuners, The Screamin' Eagle Pro Street Tuner talks directly to your motorcycle's ECM and re-programs the motorcycle's operating system. The Pro Street Tuner discretely plugs into the bike's data port, so no splicing or under-seat hardware is required. The Screamin' Eagle Pro Street Tuner does not impact your Harley-Davidson® factory warranty coverage.

- Tune through Bluetooth® using the Screamin' Eagle Street Tuner mobile app on your personal device. Screamin' Eagle maintains a vast calibration library to ensure your performance calibration is plug and play

- Features a guided Smart Tune process to enable quick navigation through the software, whether new to tuning or an experienced user

- Smart Tune Live, a dynamic method to track engine data by running vehicle through a range of RPM and throttle positions. reduces time to modify existing Volumetric Efficiency tables (works on models with factory installed O2 sensors only)

- Compatible with Screamin' Eagle Smart Tune Pro Automatic Tuning Module P/N 41000445A

- Stores run-time data, through phone's memory, that can be downloaded to PC or viewed using the mobile app, allowing you to view and evaluate the bike's air/fuel ratio,

O2 sensor readings, engine speed and temperature, RPM and vehicle speed, throttle position, spark advance and much more. Detailed changes can be made via the Pro Street Tuner desktop application

- Adjustability to Spark Advance, Throttle Progressivity, and Volumetric Efficiency to custom tune the performance combination. Throttle Progressivity adjustability available on select models. Requires Desktop application and Y-Cable to fine tune areas of calibration

- New performance widgets and features available within the Mobile App (Engine Head Temp, Battery Voltage, Throttle Position, Engine Speed, Speedometer, Tachometer, Manifold Absolute Pressure, etc.) to view live engine data as you tune

- View and clear diagnostics functions

- Includes the Bluetooth® Communications Interface (BCI) module and unlimited access to the latest software updates and calibrations available from Screamin' Eagle

- Available Tuner Cable kit (P/N 41001142, sold separately) for computer connection for use in environments with poor Bluetooth connectivity, such as dyno rooms and to adjust specific parameters within calibrations

- 49-State U.S. EPA compliant

41001141A
Fits '21-later Touring, Trike and Softail® models. Does not fit California models, '21-'24 California models instead require P/N 41001166A. The Screamin' Eagle Pro Street Tuner mobile app supports both iOS version 15 and newer and Android version 11 and newer.

41001166A
Fits '21-'22 Touring, '21-'22 Trike and '21-'22 (except '21-'22 FXLRS and FXLRST) Softail California models only. Dealership installation only. Please see the What's New section of the Screamin' Eagle Street Tuner mobile app or PC software for the list of available calibrations.

SCREAMIN' EAGLE PRO STREET TUNER - Y CABLE

Required to connect a Screamin' Eagle Pro Street Tuner (P/N 41001141, sold separately) with '21-Later models equipped with a Milwaukee-Eight® engine.

41001142
For use with '21-later Softail, Touring, and Trike models and the Screamin' Eagle Pro Street Tuner P/N 41001141. Does not fit California models.

B. SCREAMIN' EAGLE PRO STREET TUNER

The Screamin' Eagle Pro Street Performance Tuner is designed to simplify management of engine operating parameters as performance modifications are made. Once installed, the kit allows you to adjust key parameters or simply upload the latest Engine Control Module (ECM) calibrations to match your bike's state-of-tune. Start with a high-flow air cleaner and Street Performance mufflers and upload the calibration that provides the best performance mix. Add additional Stage Upgrades later, and you simply upload the proper ECM calibration to match the model and hardware. Plus, you have free online access to the latest factory calibrations. Ideal for real-world street performance applications, the Pro Street Tuner provides the adjustability to account for bike-to-bike variation and for changes to cams, heads, intake and exhaust while maintaining closed-loop fuel control for fuel economy in the part-throttle operating range. Unlike other aftermarket tuners, The Screamin' Eagle Pro Street Tuner actually talks directly to your motorcycle's ECM and re-programs the motorcycle's operating system. It isn't a piggyback system that tries to fool the ECM into adding more fuel or changing the ignition timing. The Pro Street Tuner plugs into the bike's data port, so no splicing or under-seat hardware is required. And unlike other race tuners or engine controllers, the Screamin' Eagle Pro Street Tuner does not impact your Harley-Davidson® factory warranty coverage.

- Features a guided Smart Tune process to enable quick navigation through the software and permits tunability to optimize performance and drivability without compromising fuel efficiency, emission levels, engine durability, or 50-State U.S. EPA compliance

- Stores up to 15 minutes of run-time data that can be downloaded to PC, allowing you to view and evaluate the bike's air/fuel ratio, O2 sensor readings, engine speed and temperature, RPM and vehicle speed, throttle position, spark advance and much more

- Vehicle Communications Interface (VCI) will record and display service codes for troubleshooting and diagnostics

- Smart Tune Live, a dynamic method to track engine data by running vehicle through a range of RPM and throttle positions, reduces time to modify existing Volumetric Efficiency tables (works on models with factory-installed O2 sensors only)

- Adjustability to Spark Advance, Throttle progressivity, and Volumetric Efficiency to custom tune the performance combination

- Includes the Vehicle Communications Interface (VCI) module and unlimited access to the latest software updates and calibrations available from Screamin' Eagle. **Screamin' Eagle Tuner Cable kits P/Ns 32184-08A, 41000018 and 41000979 available for separate purchase. See h-d.com for model specific applications.**

4100008C
For use with '17-'20 XG, '14-'22 XL and '07-'17 Dyna®, and '07-'22 Softail and Touring, and '17-'22 Trike models. Requires separate purchase of model-specific Tuner Cable. Does not fit California '21-later models. California models instead require P/N 41001212A. Refer to H-D.com/shop for status.

41001212A
For use with '17-'20 XG, '14-'21 XL and '07-'17 Dyna, and '07-'22 Softail (except '21-'22 FXLRS and FXLRST), '07-'22 Touring and '17-'22 Trike California models only. Requires separate purchase of model-specific Tuner Cable. Dealership installation only. Refer to H-D.com/shop for status.

B. SCREAMIN' EAGLE PRO STREET TUNER

C. SCREAMIN' EAGLE® SMART TUNE PRO AUTOMATIC TUNING MODULE*

Smart Tune PRO works with the Screamin' Eagle Pro Street Tuner to automatically adjust your bike for the combination of performance components, climates and vehicle load conditions you are operating in. You just install the upgraded wideband oxygen sensors in the exhaust headers, download the calibration that the Screamin' Eagle engineers have developed as a starting point, then simply drive down the road and let Smart Tune PRO do the work.

Smart Tune PRO constantly monitors the operating parameters of your motorcycle, and automatically adjusts the bike's Electronic Control Module (ECM) to maximize performance in your current riding conditions. Smart Tune PRO utilizes wideband O₂ sensors that read oxygen levels in the exhaust stream to determine the optimum air/fuel ratio your bike needs at this very moment. Smart Tune PRO analyzes the data and automatically makes real-time tuning adjustments to the ECM. Unlike the standard narrow-band O₂ sensors that only provide feedback in the part-throttle cruising range, the wideband sensors can read and adjust tuning throughout the part throttle cruising and full-throttle acceleration operating range.

It is fully factory supported, and optimized to maximize performance while maintaining drivability and engine longevity. Smart Tune PRO is 50-State EPA compliant and does not impact the H-D™ factory warranty. Kit includes the Smart Tune PRO module with plug-in wiring harness, two M18 wideband O₂ sensors and access to free software updates, future calibrations and free online training modules. Screamin' Eagle Pro Street Tuner and model-specific installation hardware is sold separately.

41000445A
Fits '14-'22 XL, '16-'17 Dyna FXDLS, '16-later Softail, '14-later Touring (except '25-later FLTRXRSE) and '17-later Trike models. Does not fit '21-later California models. Installation requires exhaust modification to incorporate wide-band oxygen sensors. Some models require Oxygen Sensor Harness Extension. For model specific installation requirements see Installation Instructions on H-D.com/shop. All models require ECM calibration with Screamin' Eagle Pro Street Tuner or dealership installed Screamin' Eagle calibration for proper installation.

Also available: (not shown) M18 OXYGEN SENSOR INSTALLATION TOOL

Plug-in extension cable is wired to allow installation of the Screamin' Eagle Smart Tune PRO Automatic Tuning Module hardware on specific models. No splicing or soldering is required.

14900150
For use on '23-later FLHXSE, FLTRXSE, '24-later FLHX, FLTRX, FLTRXSTSE, '25-later FLHXU and '26-later Trike models for installation of M18 wide-band oxygen sensors. Use of a drill press is mandatory for installation. Requires the separate purchase of 14900105.

OXYGEN SENSOR HARNESS EXTENSION

Plug-in extension cable is wired to allow installation of the Screamin' Eagle Smart Tune PRO Automatic Tuning Module hardware on specific models. No splicing or soldering is required.

69201704
Required for use of Screamin' Eagle Smart Tune PRO Automatic Tuning Module hardware on, '16-'17 Dyna and Softail models.

Check your local dealership for more information.

MILWAUKEE-EIGHT® POWERTRAIN

Screamin' Eagle Stage upgrades offer complete street-compliant performance configurations engineered to generate specific torque and horsepower gains. Eliminating all the guesswork and trial-and-error testing normally associated with engine modifications, Stage upgrades include everything you need to enhance your bike's performance. Start with the foundation, the Stage I upgrade, then choose from Stage II, III or IV depending on your performance goals, budget and riding style.

STAGE I

INTAKE + EXHAUST + TUNING

The easiest and most cost effective step to improve your motorcycle's performance is to increase the airflow into and out of the engine. A high-flow air cleaner and system-matched slip-on mufflers provide horsepower and torque improvements you can feel throughout the RPM range, and serve as the core components for all performance upgrades. ECM calibration is required to tune the fuel flow and timing required to accommodate the improved airflow.

Stage I upgrade can be installed without engine disassembly. No special tools are required. Requires ECM tuning.

Street legal and/or street compliant statements refer to product meeting 50-State emissions and noise standards in the United States. The street legal and/or street compliant statements may not apply to markets outside of the United States.

STAGE II

STAGE I + CAM UPGRADE

Adding performance cams to a Stage I equipped bike is the next step to improved performance. Cam choices allow you to tailor the engine's performance to your specific needs. A torque cam offers on-demand throttle response from low- to mid-RPM at cruising speed. A power cam targets high-RPM, wide-open throttle response that keeps pulling right up to the redline. ECM calibration tuning is required to accommodate the increased valve timing, and performance valve springs may be required for high-lift cams.

Stage II upgrade requires minor engine disassembly to replace the cam. Adjustable pushrods allow cam installation without removing the rocker box. Special tools and ECM tuning are required.

STAGE III

STAGE I + CAM, BIG BORE CYLINDERS & PISTONS

The next step on the performance journey is to build a bigger engine. An increase in engine displacement allows the engine to swallow more air and fuel, a higher compression piston squeezes the air/fuel into a more volatile mixture, and when combined, generates more power when ignited. A displacement and compression increase provides torque increases throughout the entire RPM range with a 15-25% improvement in the mid-range power. ECM calibration tuning is required to adjust fuel flow and timing to accommodate the increased displacement.

Stage III bolt-on upgrade requires removal of the engine's top end and opening the cam chest. Engine remains in the chassis and no machining is required. Special tools and ECM tuning are required.

STAGE IV

STAGE I + CAM, BIG BORE CYLINDERS, PISTONS, CYLINDER HEADS & THROTTLE BODY

To maximize the impact of the increased displacement gained with Stage III updates, the addition of free-flowing ported cylinder heads and a big bore throttle body top off the performance build. Designed to satisfy the high-RPM, throttle-twisting rider, the Stage IV update delivers 20-30% increase in power that keeps pulling right up to the redline, without sacrificing mid-range torque. ECM calibration tuning is required to add more fuel, and a higher-lift cam may be required to deliver maximum power.

Stage IV bolt-on upgrade requires removal of the engine's top-end and opening the cam chest. Engine remains in the chassis and no machining is required. Special tools and ECM tuning are required.

Street legal and/or street compliant statements refer to product meeting 50-State emissions and noise standards in the United States. The street legal and/or street compliant statements may not apply to markets outside of the United States.

SCREAMIN' EAGLE® 243

Vortex Extreme

A. SCREAMIN' EAGLE® VORTEX EXTREME AIR CLEANER

Screamin' Eagle Vortex Extreme Flow Air Cleaner Kits allow free breathing and unobstructed airflow to your Milwaukee-Eight® engine. Your engine gets more air, and you can feel more power throughout the rev range. Designed specifically for models with fairing lowers where legroom is essential.

- Shaped to maximize air flow and power gain while allowing for knee range of motion while using the rear brake and floorboard
- Showcases all four pushrods of the Milwaukee-Eight powertrain
- Standard rain sock keeps water, dust, and debris from contacting your air filter - extra insurance when riding in the elements
- Full kit includes backing plate, air filter element, cover, rain sock, and all necessary mounting hardware
- 49-State US Compliant

Fits '25-later Softail®, '23-later Touring and '26-later Trike models with Center-Cooled Milwaukee-Eight engines. Does not fit California models. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation.

244 SCREAMIN' EAGLE®

Heavy Breather

A. SCREAMIN' EAGLE® HEAVY BREATHER EXTREME AIR CLEANER

Designed for maximum performance, this race inspired Screamin' Eagle Heavy Breather Extreme Air Cleaner flows 20% more air than the Original Equipment air box. At speeds over 60 mph, the air cleaner experiences a ram-air effect. The all-new filter design captures air from the Extreme face, on the front of the air cleaner. The air then travels through the race inspired elbow followed by a straight shot into the throttle body. Designed to feed a large-displacement engine enough clean air that can support output of over 150hp. This air cleaner provides a stout increase in torque throughout the mid-range, as compared to other air cleaner designs. Water-resistant K&N oiled-cotton filter is washable and rechargeable using K&N Air Filter Care Service Kit P/N 99850-92T). Standard rain sock keeps water, dust and debris from contacting your air filter. Extra insurance when riding in the elements. 49-State U.S. EPA compliant.

Fits '23-later Center Cooled Touring models, '25-later Softail models (except FXLRST) and '26-later Trike models. Does not fit models with lower fairings. Does not fit California models.

29400454 Black.

29400455 Chrome.

Also available: (not shown)

HEAVY BREATHER RAIN SOCK

Protect your exposed-element air cleaner during inclement weather with this Heavy Breather Rain Sock. The mesh cover stretches over the filter to repel moisture and the breathable cover does not significantly reduce air flow to the engine

29400524

Fits '24-later FLTRXSTSE and '26-later FLHXSTSE models equipped with the original-equipment air cleaner.

Extreme Wedge

B. SCREAMIN' EAGLE® AIR CLEANER – EXTREME WEDGE

Screamin' Eagle Extreme Flow Air Cleaner Kits allow free breathing and unobstructed airflow to your Milwaukee-Eight® engine. Your engine gets more air, and you can feel more power throughout the rev range. Extreme open-face design and K&N washable oiled-cotton filter for maximum air flow in the iconic performance style of the Milwaukee-Eight engine/motor Wedge shape. Designed to flow 22% more air than a traditional air cleaner and eliminates the air cleaner cover. Designed to feed a large displacement engine enough clean air that can support output of over 150hp. Standard rain sock keeps water, dust, and debris from contacting your air filter. Extra insurance when riding in the elements Save money over the long run. Wash and re-oil this filter instead of buying replacement filters using K&N Air Filter Care Service Kit P/N 99850-92T). 49-State U.S. EPA compliant.

Fits '23-later Center Cooled Touring models, '25-later Softail®, and '26-later Trike models. Does not fit California models. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation.

29400459 Black.

29400460 Chrome.

246 SCREAMIN' EAGLE®

Milwaukee-Eight® Stage I Upgrade

A. SCREAMIN' EAGLE® HEAVY BREATHER EXTREME AIR CLEANER

We've taken the iconic Screamin' Eagle Heavy Breather Air Cleaner to the next level—an extreme performance level. Designed for maximum performance, this extra-large Screamin' Eagle Heavy Breather Extreme Air Filter flows 42% more air than a traditional Heavy Breather filter. Air moves smoothly through the filter due to an interior bell-shape feature and then travels through a unique round to oval transitioned tube to improve leg clearance while providing unobstructed air to the throttle body. At speeds over 60 mph, the filter captures air from the front, forcing the air through a smaller area to create a RAM air effect, while the long intake tube enhances torque beyond other Ventilator and Round High-Flow Filters for enhanced acceleration. Designed to feed a large displacement engine enough clean air that can support output of over 150hp. The cast aluminum intake tube and back plate are dressed in rich, gloss black or mirror-like chrome. The back plate features a Screamin' Eagle logo. Kit includes all required mounting hardware. Optional Rain Sock P/N 29400424 is available to protect the exposed element in inclement weather.

Fits '18-'24 Softail®, '17-'25 Touring (except models equipped with Fairing Lower and Center Cooled models). Also fits '17-later Freewheeler models. Does not fit models equipped with Fairing Lower Glove Boxes, Fairing Lower Speakers or Road Glide Fairing Spoilers. All models require ECM calibration with Screamin' Eagle Pro Street Tuner or dealership installed Screamin' Eagle calibration for proper installation. Pending approval for use in California on '21 models. Refer to H-D.com/shop for status. Does not fit Center Cooled models.

SCREAMIN' EAGLE® 247

Milwaukee-Eight® Stage I Upgrade

B. SCREAMIN' EAGLE® HEAVY BREATHER ELITE AIR CLEANER – MILWAUKEE-EIGHT® ENGINE

Take a deep breath. This Screamin' Eagle Heavy Breather Elite picks up where the past generation Milwaukee-Eight Heavy Breather left off with a 15% air flow improvement. Redesigned to support even more performance with engine builds pushing over 135hp. The iconic Heavy Breather Air Cleaner features a forward-facing oiled cotton filter element that flows large volumes of clean air into the engine. The short, low profile cast tube rams the charge directly into the throttle body with little turbulence for increased power and torque, and the intake tube mounts to a custom back plate that features integral breathers and covers the throttle body electronics for a finished look. The slanted compact filter adds an aggressive performance look, and it is shaped to allow installation on Touring bikes equipped with fairing lowers. This Elite version includes an integrated cover manufactured from forged aluminum and precision machined to further enhance the stylized performance look while exposing a majority of the filter to maximize airflow. Available in your choice of chrome or gloss black finish, the kit includes filter, cover, intake tube, custom back plate, and all mounting hardware.

Fits '18-'24 Softail® models and '17-'25 Touring (except '23-later FLHXSE, FLTRXSE, '24-'25 FLHX, FLTRX and '25-later FLHXU) and Trike models. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation. Does not fit on models equipped with fairing lower glove boxes or fairing lower speakers. Pending approval for use in California on '21-'22 models. Refer to H-D.com/shop for status.

29400406 Chrome.

29400407 Gloss Black.

248 SCREAMIN' EAGLE®

Milwaukee-Eight® Stage I Upgrade

A. SCREAMIN' EAGLE® VENTILATOR EXTREME AIR CLEANER

Let it breathe! The open-face filter design of the Screamin' Eagle Ventilator Extreme Air Cleaner Kit flows 39% more air than a traditional perimeter high-flow filter. When combined with an additional 1/2" of air filter thickness and the smooth radius die-cast back plate, this open filter can feed a large displacement engine with an unobstructed flow of clean air that can support output of over 150hp. Kit includes a die-cast back plate, and open-face, water-resistant, washable oiled-cotton filter element and all required installation gaskets and hardware. Optional Rain Sock P/N 29400412 is available to protect the exposed element in extreme weather. Choice of either Gloss Black (P/N 61300994) or Chrome (P/N 61300993) Cover Kit required to complete installation.

Fits '18-'24 Softail® and '17-'25 Touring (except '23-later FLHXSE, FLTRXSE, '24-later FLHX, FLTRX and '25-later FLHXU) and Trike models. Requires Ventilator Extreme Air Cleaner Cover Kit P/N 61300993 or 61300994 to complete installation. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation. pending approval for use in California on '21-'22 models. Refer to H-D.com/shop for status.

29400479 Gloss Black.

B. SCREAMIN' EAGLE VENTILATOR EXTREME AIR CLEANER COVER

The Ventilator Extreme Air Cleaner Cover trims the face of the Screamin' Eagle Ventilator Extreme filter in style and features aggressive mounting lugs, polished stainless-steel custom ARP fasteners and an inset Screamin' Eagle medallion. The cast aluminum, rich gloss black cover wraps the leading edge of the filter element, covering the rubber gasket without restricting airflow. This Air Cleaner Cover is required to complete installation of the Ventilator Extreme Air Cleaner Kit P/N 29400396 & 29400397.

Fits Screamin' Eagle Ventilator Extreme Air Cleaner Kits P/N 29400396 and 29400397. Includes necessary ARP hardware. Also fits standard Ventilator Air Cleaner Kits P/N 29400298 and 29400299 with separate purchase of Extreme Ventilator Air Filter P/N 29400400.

C. SCREAMIN' EAGLE AIR CLEANER RAIN SOCK

Protect your exposed-element air cleaner during inclement weather. This mesh cover stretches over the filter to repel moisture that could damage the filter and be drawn into the engine. The breathable cover does not significantly reduce air flow to the engine.

29400412

Fits Screamin' Eagle Ventilator Extreme Air Cleaner Kits.

D. SCREAMIN' EAGLE VENTILATOR EXTREME K&N® AIR FILTER ELEMENT

K&N replacement air filters are engineered to improve airflow for increased horsepower and quicker acceleration. The Screamin' Eagle Extreme Ventilator K&N Air Filter Element is a replacement filter designed specifically for Screamin' Eagle Extreme Ventilator Air Cleaners. This replacement filter provides excellent filtration and because they are washable and reusable, you can clean the filter whenever conditions demand.

29400400

Fits Screamin' Eagle Ventilator and Ventilator Extreme Air Cleaner Kits. Requires Ventilator Extreme Air Cleaner Cover Kit P/N 61300993 or 61300994 to complete installation. Does not fit '23-later FLHXSE, FLTRXSE, '24-later FLHX and FLTRX models.

E. SCREAMIN' EAGLE VENTILATOR AIR CLEANER KIT – MILWAUKEE-EIGHT® ENGINE

This low-profile oval air cleaner features an exposed filter element and a cast back plate designed to provide maximum airflow to the throttle body. This easy-to-install air cleaner produces significant performance gains, while the stylish cover is tapered for added leg clearance. This complete kit includes low-profile air cleaner cover, high-flow filter element, cast aluminum back plate, diamond-cut Screamin' Eagle® medallion and all required installation hardware. Protective Rain Sock is included. 50-State U.S. EPA compliant.

Fits '18-'24 Softail® and '17-'25 Touring (except '23-later FLHXSE, FLTRXSE, '24-later FLHX, FLTRX and '25-later FLHXU) and Trike models. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation. ECE compliant on '17-later CVO™ Touring models. Pending approval for use in California on '21-'22 models. Refer to H-D.com/shop for status.

250 SCREAMIN' EAGLE®

Extreme-Flow Round Air Cleaner Trim

A. SCREAMIN' EAGLE® EXTREME AIR CLEANER – CIRCLE

Screamin' Eagle Extreme Flow Air Cleaner Kits allow free breathing and unobstructed airflow to your Milwaukee-Eight® engine. Your engine gets more air, and you can feel more power throughout the rev range. With extreme open-face design and K&N® washable oiled-cotton filter for maximum air flow in the iconic performance style of a classic center-bolt filter shape. Designed to flow 20% more air than the Original Equipment air cleaner and eliminates the air cleaner cover. It is designed to feed a large displacement engine enough clean air that can support output of over 150hp. The standard rain sock keeps water, dust, and debris from contacting your air filter, for extra insurance when riding in the elements. Save money over the long run-wash and re-oil this filter instead of buying replacement filters. The air cleaner includes the gloss-black finished die-cast back plate, an open-face washable oiled-cotton filter element, and all required installation gaskets and hardware. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation. The air cleaner is 49-state U.S. EPA compliant. Screamin' Eagle products are not available for sale and are not street legal in all countries. Please contact your local dealer for more information.

29400488

Fits '23-later Center Cooled Touring models, '25-later Softail® models, and '26-later Trike models. Does not fit California models. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation.

Milwaukee-Eight® Stage I Upgrade

C. SCREAMIN' EAGLE® WEDGE HIGH-FLOW AIR CLEANER

Screamin' Eagle High-Flow Air Cleaner Kits allow free breathing and unobstructed airflow to your Milwaukee-Eight® engine—while maintaining a subtle Original Equipment look. These kits feature a die-cast back plate sized to provide an open-element function that permits airflow around the entire perimeter of the air cleaner and through the ram air opening at the front. Your engine gets more air, and you feel more power throughout the rev range. Kit includes the die-cast back plate, a high-flow oiled-cotton filter element, all required installation gaskets and hardware and a diamond-cut Screamin' Eagle medallion to finish the look. Kits are available with your choice of chrome or textured black back plate to match your customizing style. 50-State U.S. EPA compliant.

Fits '17-'25 Touring (except '24-later FLHX, FLTRX and '25-later FLHXSE, FLHXU, FLTRXSE and FLTRXSTSE) and Trike models equipped with wedge style air cleaner. Not compatible with air cleaner cover on CVO™ Touring models. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation. ECE compliant on '17-later CVO Touring models. Pending approval for use in California on '21-'22 models. Refer to H-D.com/shop for status.

256 SCREAMIN' EAGLE®

Milwaukee-Eight® Stage I Upgrade

A. SCREAMIN' EAGLE® EXTREME FLOW TITANIUM SLIP-ON MUFFLER

Realize a significant weight reduction and a deeper, more robust exhaust tone with this Screamin' Eagle Extreme Flow Titanium muffler, designed specifically to fit on '25-later Softail models. The Titanium muffler body construction with Forged Carbon Fiber end cap reduces overall weight by 20% compared to the Original Equipment exhaust. Matte black finish with laser etched Screamin' Eagle logo. 49-state U.S. EPA compliant. Screamin' Eagle products are not available for sale and are not street legal in all countries - Please contact your local dealer for more information.

Fits '25-Later FXBB, FXLRS, FXLRST and FLHC models. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation.

64901405

A. SCREAMIN' EAGLE EXTREME FLOW TITANIUM SLIP-ON MUFFLER

B. SCREAMIN' EAGLE STREET CANNON MUFFLERS – SPORT GLIDE® MODELS

Tuned to provide a deep bass exhaust note and great rumble throughout the RPM range, this 4.5" Street Cannon muffler delivers the famous Harley sound while preserving the peace with your neighbors. You get a nice bark when you get on the throttle, and a deep mellow tone when cruising at constant speed. The tuned baffle works with the internal high-flow catalyst to strike the perfect balance required to deliver performance that you can feel in your gut. The large 4.5" diameter Street Cannon provides free flow of exhaust gases with just the right amount of back pressure for a smooth-running ride and can be fitted with a wide variety of styled muffler end caps to provide the perfect finishing touch. Requires choice of chrome or satin black muffler shield with laser etched logo.

Designed for International markets that require ECE certified mufflers. Fits '21-'24 FLSB models. Installation requires separate purchase of Muffler Shield, Muffler End Cap, Muffler Clamp P/N 65900007 (Qty 1) and Muffler Gasket P/N 65900040 (Qty 1).

64901191 Black.

D. SATIN BLACK MUFFLER SHIELDS

Complete the blacked-out look. These rich satin-black shields wrap the chrome Street Cannon mufflers and complete the conversion to a sinister look. Styled to hug the lines of the mufflers, the blunt-cut shields are sized to expose the muffler end cap for a custom touch. Easy-to-install kit includes front and rear shields and black mounting clamps.

65400457 Short Shields.

Fits '18-'24 FLDE, FLHC and FLHCS models equipped with Screamin' Eagle® Street Cannon Mufflers P/N 64900636 or 64900638.

65400461 Long Shields.

Fits '18-'24 FLFB, FLFBS, FLSL, FXBB, FXBBS, FXBR, FXBRS, FXLR, FXLRS, FXLRST and FXST models equipped with Screamin' Eagle Street Cannon Mufflers P/N 64900690 or 64900691.

E. SATIN BLACK EXHAUST SHIELD KIT

Extend the custom look along the bike's entire profile. These formed steel exhaust shields are available in a unique satin black ceramic finish that complements black Screamin' Eagle Street Cannon Muffler Shields. This exhaust shield kit has survived stringent Harley-Davidson testing for durability and corrosion resistance. Manufactured to Original Equipment standards for exact fit, the easy-to-install kit includes front and rear head pipe shields.

65400460

Fits '18-'24 FLFB, FLFBS, FXBR and FXBRS models.

65400472

Fits '18-'24 FLSB, FXFB, FXFBS and '19-'20 FXDRS models.

65400481 Collector Shield.

Fits '18-'24 FXFB and FXFBS models.

NOTE: There is no warranty on exhaust pipes and mufflers with regard to any discoloration. Blueing is caused by tuning characteristics, cam timing, carburetor jetting, over-heating, etc. and is not caused by defective manufacturing.

258 SCREAMIN' EAGLE®

Milwaukee-Eight® Stage I Upgrade

A. SCREAMIN' EAGLE® EXTREME FLOW TITANIUM SLIP-ON MUFFLERS

Realize a significant weight reduction and a deep, sporty exhaust tone with these Screamin' Eagle Extreme Street Cannon mufflers, designed specifically to fit on '17-later Touring models. These mufflers weigh 10% less than the Original Equipment (CVO™ models) 4.5" mufflers. The oval shape maintains the Original Equipment lean angle. The titanium mufflers and Forged Carbon Fiber end caps are both lightweight and durable. They have a matte black finish with laser etched Screamin' Eagle logo and complement other lightweight Forged Carbon Fiber accessories. The mufflers are 49-state U.S. EPA compliant. Screamin' Eagle products are not available for sale and are not street legal in all countries. Please contact your local dealer for more information.

64901365

Fits '17-later Touring models. Does not fit Trike or California models. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation.

B. SCREAMIN' EAGLE STREET CANNON PERFORMANCE SLIP-ON MUFFLERS – 4.5"

Dialed in to enhance the performance of the Milwaukee-Eight® engine, these slip-on mufflers feature a large inlet for improved airflow. When teamed with a free-flowing air cleaner, these Street Cannon mufflers deliver horsepower and torque gains you can feel. The large 4.5" diameter mufflers are tuned to provide a rich exhaust note, a deep bass rumble and great throaty sound when you roll on the throttle. But to strike a balance with your neighbors, the large internal volume and strategically designed baffles help maintain the peace at partial throttle. The large-diameter body adds a muscular look to your ride, and the newly designed mounts keep the mufflers tucked in close to the bags for a clean profile and can be fitted with a wide variety of styled muffler end caps to provide the perfect finishing touch.

Fits '17-'25 Touring models (except '23-later FLHXSE, FLTRXSE models, '24-later FLHX, FLTRX and '25 FLHXU models). Does not fit Trike models. Installation requires separate purchase of Muffler Clamps P/N 65900012 and 65900015. Requires separate purchase of end caps. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation. Pending approval for use in California on '21-'22 models. Refer to H-D.com/shop for status.

64900552A Chrome.

64900553B Satin Black.

Fits '17-'20 114CI and 117CI Touring models. Does not fit Trike models. Designed for International markets that require ECE certified mufflers. Includes matching Two-piece Muffler end caps. Installation requires separate purchase of Muffler Clamps P/N 65900012 and 65900015.

64900555A Chrome – ECE Certified.

64900554B Satin Black – ECE Certified.

260 SCREAMIN' EAGLE®

Milwaukee-Eight® Stage I Upgrade

A. SCREAMIN' EAGLE® HIGH-FLOW EXHAUST SYSTEM WITH STREET CANNON MUFFLERS

The Screamin' Eagle High-Flow Exhaust system provides bolt-on performance by reducing the catalyst restrictions and improving exhaust flow. This exhaust system is optimized for use with Screamin' Eagle Stage Kit-equipped Milwaukee-Eight® engines. The complete exhaust system starts with race-shop constructed oversized mandrel-bent and hand TIG-welded stainless steel head pipes, and flows through a unique crossover to improve the flow of spent cylinder gasses. The large inlet 4.5" Street Cannon mufflers feature baffles that are optimized for aggressive performance and sound under acceleration, and deliver a rich mellow note. The combination of tuned-flow headers and Street Cannon mufflers with relocated catalyst maximizes horsepower, maintains solid midrange torque and manages heat. The proof is in the horsepower and torque numbers. Dial the system to your motorcycle by using the Screamin' Eagle Pro Street Tuner to tune your ECM specifically to match your performance upgrades. The complete system includes exhaust headers pre-tapped for standard or Screamin' Eagle wide-band O2 sensors, large 4.5" diameter Street Cannon mufflers, and matching exhaust heat shields. Complete the look with your choice of custom muffler end caps (sold separately). This High-Flow Exhaust System is designed to pair with a 128CI or 131CI Stage IV Kit or Crate Engine to ensure maximum performance. 49-State U.S. EPA compliant. Refer to www.H-D.com/Shop for status.

Fits '17-'25 Touring models (except '23-later FLHXSE, FLTRXSE, '24-later FLHX, FLTRX and '25-later FLHXU models). Does not fit Trike models. Does not fit with Dominion™ Transmission Side Covers. Separate purchase of Screamin' Eagle 4.5" endcaps required. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation. See Dealer for details. Does not fit California models.

65600331 Chrome with Chrome Mufflers.

65600332 Satin Black with Satin Black Mufflers.

B. SATIN BLACK EXHAUST SHIELD KIT

These formed steel exhaust shields feature a unique black coating that complements the finish of the Screamin' Eagle black slip-on mufflers. The rich black coating maintains its uniform black finish and has survived stringent Harley-Davidson testing for durability and corrosion resistance. Manufactured to Original Equipment standards for exacting fit, the easy-to-install kit includes front and rear head pipe shields.

65400285A

SCREAMIN' EAGLE® 261

262 SCREAMIN' EAGLE®

Milwaukee-Eight® Stage II Upgrade

A. SCREAMIN' EAGLE® STAGE II KIT

The high-performance SE8-511 camshaft profile, initially developed for the Milwaukee-Eight® 121 High Output engine, delivers a high-octane performance boost for 117ci models. Designed for the horsepower junkie in mind, this camshaft kit will build additional horsepower @ 4000 RPM and continues to build by up to 21% increase at redline.

- Ideal for high octane riders that consistently push their vehicle to the upper RPM range
- Produces greater acceleration in the mid and upper RPM range
- Includes adjustable pushrods that allow SE8-511 camshaft installation without removing the cylinder heads, significantly reducing installation time and cost
- Kit includes Screamin' Eagle High-Capacity Lifters
- Black pushrod tubes to match Black engine finish
- Screamin' Eagle products are not available for sale and are not street legal in all countries. Please contact your local dealer for more information.

Fits '24-later FLHX, FLTRX and FLHXU models and '25-later Softail® models. Factory equipment on '24-later FLTRXSTSE and '26-later FLHXSTSE and FLTRXP and '25-later FXLR and FXLRST models. Does not fit California models. Does not fit VVT equipped models.

- 92500132 Black.
- 92500133 Chrome.

B. SCREAMIN' EAGLE SE8-511 CAM

Same camshaft specifications as the Milwaukee-Eight 121 High Output engine camshaft. Screamin' Eagle products are not available for sale and are not street legal in all countries. Please contact your local dealer for more information.

25400476

Fits '24-later FLHX, FLTRX and FLHXU models and '25-later Softail models. Factory equipment on '24-later FLTRXSTSE and '26-later FLHXSTSE and FLTRXP and '25-later FXLR and FXLRST models. Does not fit California models. Does not fit VVT equipped models.

D. SCREAMIN' EAGLE PERFORMANCE VALVE SPRING KIT - MILWAUKEE-EIGHT POWERTRAIN

SCREAMIN' EAGLE® 263

Milwaukee-Eight® Stage II Upgrade

C. SCREAMIN' EAGLE® PREMIUM TAPERED QUICK-INSTALL ADJUSTABLE PUSHRODS

These premium pushrods are tapered for enhanced clearance at the cylinder head, allowing the use of higher-lift cams. The one-piece chrome moly tube adds rigidity and durability and the threaded adjustment feature provides easy cam installation without removing the cylinder heads or rocker boxes. To simplify adjustment, the tube features six flats, with one flat marked with a large dot for tracking the adjustment. The threaded rod features 4 flats to reduce wrench swing. Kit includes 4 pushrods and required pushrod tube covers.

Fits '18-later Softail® and '17-later Touring and Trike models.

- 17900073 With Black Covers.
- 17900058 With Chrome Covers.

D. SCREAMIN' EAGLE PERFORMANCE VALVE SPRING KIT

These performance beehive-shaped valve springs provide increased stiffness and strength in a compact design. Designed to support the installation of higher lift cams, these performance springs help maintain the stability of the valve train in high RPM conditions. Complete kit includes 8 springs, upper collars and keepers and lower collars with integral valve seals. Recommended for use with cam lifts greater than .470".

18100080

Fits '18-later Softail and '17-later Touring and Trike models.

Street legal and/or street compliant statements refer to product meeting 50-State emissions and noise standards in the United States.

The street legal and/or street compliant statements may not apply to markets outside of the United States.

264 SCREAMIN' EAGLE®

Milwaukee-Eight® Stage II Upgrade

STAGE II

THE BASICS

- Choose a **TORQUE CAM** or **POWER CAM** based on riding style
- A performance cam increases both the lift in the valve train (pushing the valve open farther) and the duration of the valve opening (how long the valve stays open)

A. SCREAMIN' EAGLE® MILWAUKEE-EIGHT® STAGE II – TORQUE KIT (CHROME COVERS SHOWN)

A. SCREAMIN' EAGLE® MILWAUKEE-EIGHT® STAGE II – TORQUE KIT

This kit was developed for the budget-minded rider who wants to experience crisp throttle response and acceleration he or she can feel at slower speeds. The 5% increase in torque can be felt immediately off the line and continues to build by up to a 14% increase @ 4500 RPM – the ideal power band for passing slow-moving vehicles.

SE8-447 Cam

- Delivers enhanced torque and horsepower in the low to mid RPM range
- Produces passing power without a downshift or high revs
- Minimally invasive, only requiring opening of the cam chest

Fits '18-'24 Softail® and '17-'25 Touring (except Center Cooled Models) and Trike models. Not intended for use on '18-later CVO™ Touring and Trike models. Not intended for use on Touring and Softail Models equipped with an OE 117 Engine. Requires separate purchase of Cam Drive Retention Kit P/N 25566-06. Installation may require Cam Spacer Kit P/N 25928-06. For '17-'18 Touring models, installation of Oil Pump Cover P/N 62400206 is recommended (sold separately). All models require ECM calibration with Screamin' Eagle® Pro Street Tuner for proper installation. See Dealer for details. Does not fit '22 California models. Refer to H-D.com/shop for status.

92500047A Chrome Covers.

92500074A Gloss Black Covers.

Fits '18-'24 California Softail and '17-'25 California Touring equipped with oil/air or twin cooled engines and '17-later California Trike models. Not intended for use on 18-later CVO models or models equipped with an OE 117ci engine. Requires separate purchase of Cam Drive Retention Kit P/N 25566-06. Installation may require Cam Spacer Kit P/N 25928-06. For '17-'18 Touring models, installation of Oil Pump Cover P/N 62400206 is recommended (sold separately). All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation.

92500127 Chrome.

92500129 Gloss Black.

THE PERFORMANCE

TORQUE KIT

- The rider will feel up to a 15% increase in performance in the low to mid RPM range
- Experience crisp throttle response and acceleration that can be felt at slower speeds, perfect for passing slow moving vehicles without downshifting

POWER KIT

- The rider will feel up to a 25% increase in performance in the mid to upper RPM range
- Experience an adrenaline-pumping burst of speed while heading toward the red line

TORQUE

POWER

B. SCREAMIN' EAGLE MILWAUKEE-EIGHT STAGE II – POWER KIT (GLOSS BLACK COVERS SHOWN)

B. SCREAMIN' EAGLE MILWAUKEE-EIGHT STAGE II – POWER KIT

This kit was developed for the budget-minded rider who wants to experience that adrenaline-pumping burst of speed while heading toward the red line. The additional power starts to build @ 3000 RPM and continues to build by up to 24% at redline. Riding the bike aggressively will require downshifting to lower gears to keep the engine operating in the higher RPM range.

SE8-462 Cam

- Ideal for riders looking for excitement and willing to ride in the upper RPM range
- Produces greater acceleration in the mid and upper RPM range
- Minimally invasive, only requiring opening of the cam chest

Fits '18-'24 Softail and '17-'25 Touring (except Center Cooled Models) models. Does not fit Trike models. Requires separate purchase of Cam Drive Retention Kit P/N 25566-06. Installation may require Cam Spacer Kit P/N 25928-06. For '17-'18 Touring models, installation of Oil Pump Cover P/N 62400206 is recommended (sold separately). All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation. See Dealer for details. Does not fit '22 California models. Refer to H-D.com/shop for status.

92500058A Chrome Covers.

92500075A Gloss Black Covers.

Fits '18-'22 California Softail and '17-'22 California Touring models. Does not fit California Trike models. Requires separate purchase of Cam Drive Retention Kit P/N 25566-06. Installation may require Cam Spacer Kit P/N 25928-06. For '17-'18 Touring models, installation of Oil Pump Cover P/N 62400206 is recommended (sold separately). All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation.

Milwaukee-Eight® Cams

STAGE II

C. MILWAUKEE-EIGHT® PERFORMANCE CAMS

Screamin' Eagle® SE8-447 Cam – Torque

- Enhanced torque in the low to mid RPM band
- Ideal for a fully loaded bike
- Increased horsepower in the mid RPM range
- Responds well to roll-on throttle application
- Crisp throttle response and acceleration at lower speeds
- Can be used with stock valve springs

Fits '18-'24 Softail® and '17-later Touring and Trike models. Not intended for use on '18-later CVO™ Touring and Trike models. Not intended for use on Touring and Softail Models equipped with an OE 117 Engine. Requires separate purchase of Cam Drive Retention Kit P/N 25566-06. Installation requires removal of rocker box covers and rocker arms or installation of adjustable pushrods. Installation may require Cam Spacer Kit P/N 25928-06. All models require ECM calibration with Screamin' Eagle® Pro Street Tuner for proper installation. Pending Regulatory approval for '21-later models. Refer to product information at www.H-D.com/shop for status.

25400199

Screamin' Eagle SE8-462 Cam – Power

- Improved power in mid and upper RPM band
- Ideal for a fully loaded bike
- Thrilling acceleration and crisp throttle response
- Ideal for rider who likes to downshift and twist the throttle
- Responds well to aggressive throttle application
- Can be used with stock valve springs

Fits '18-'24 Softail and '17-later Touring models (except Center-Cooled models). Requires separate purchase of Cam Drive Retention Kit P/N 25566-06. Installation may require Cam Spacer Kit P/N 25928-06. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation.

25400200

Screamin' Eagle SE8-498 Cam – Power

Replacement cam for models equipped with Screamin' Eagle Milwaukee-Eight Stage III Kits.

- Improved acceleration on the straightaway
- Ideal for lighter bike with bigger displacement
- Exhilarating acceleration at high engine speeds.
- Responds well to a healthy twist of the throttle
- High-lift profile for complete filling of cylinders
- Requires Performance Valve Springs P/N 18100080

25400202

Screamin' Eagle SE8-515 Cam

Replacement cam for models equipped with Screamin' Eagle Milwaukee-Eight 114 or 117ci Stage IV kits.

- Hard acceleration off the line
- Improved mid-range and high RPM horsepower
- Stump-pulling torque throughout the RPM band
- Significant increase in rear wheel torque and power
- High lift and long duration for complete cylinder filling
- Requires Performance Valve Springs P/N 18100080

25400201

Screamin' Eagle SE8-517 Cam

Developed for Milwaukee-Eight 128CI and 131CI Stage IV kits, this high-performance cam enhances efficient filling of the cylinder at the optimum timing. Offered as a stand-alone component for the engine builder looking to develop a custom performance recipe, it provides premium mid- to upper-range power.

Replacement cam for models equipped with Screamin' Eagle Milwaukee-Eight 128 or 131CI Stage IV kits. Does not fit '25-later Softail.

Does not fit '23-later Center-Cooled Milwaukee-Eight Touring models.

25400353

Milwaukee-Eight® Stage III Upgrade

STAGE III

A. SCREAMIN' EAGLE® MILWAUKEE-EIGHT® ENGINE STAGE III KIT - 117CI TO 122CI

This Stage III kit has been developed to deliver the kind of real-world power increase Touring riders will feel each time they roll on the throttle. The bump up in displacement and compression paired with a Screamin' Eagle SE8-511 camshaft deliver a significant increase in torque and power over stock and may restore the sensation of riding solo when you're loaded down with a passenger and gear.

- Delivers up to 31% more horsepower and 18% more torque compared to the Original Equipment engine configuration.
- We've done your homework. This street-compliant performance kit has been designed and tested as a system by the performance experts at Harley-Davidson.
- Includes 4.155" Big Bore Bolt-On Cylinders, Forged 10.9:1 High Compression Pistons and Rings, SE8-511 Camshaft, High Capacity Tappets, Stage III Timer Cover Medallion.
- Includes Multi-Layer Coated Head Gaskets, Cylinder Base and Cam Cover Gaskets, most necessary gaskets and seals.
- Pending 49-State U.S. EPA compliant.

92500139 Black Highlighted.
Fits '25-later Softail, '24-later FLHX and FLTRX, '25 FLHXU models, and '26-later Touring models (except CVO™ models). Installation may require Cam Spacer Kit P/N 25928-06. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation.

Milwaukee-Eight® Stage IV Upgrade

A. SCREAMIN' EAGLE® MILWAUKEE EIGHT® ENGINE STAGE IV KIT - 117CI TO 131CI

For the rider demanding no-compromise performance. This 117ci to 131ci Stage IV Kit was engineered by the pros at Harley-Davidson® to deliver instant arm-stretching torque through the entire rpm range. Made for riders seeking maximum displacement, compression, and power to weight ratio. This Stage IV Kit features the finest Screamin' Eagle components. Many of these new components were informed by extensive testing by the Harley-Davidson Factory Racing Team for the King of the Baggers racing series. The Stage IV kit consists of: All-new Screamin' Eagle Extreme CNC-ported cylinder heads, 68mm throttle body and new cast 68mm intake manifold, new SE8-550 high-lift cam and 6.8 g/sec fuel injectors work together to feed the engine large volumes of air and fuel to help maximize power. New forged high-compression pistons and rings are designed to withstand increased combustion forces. Also includes high-performance tappets and new patent-protected 4.31" steel sleeve cylinders. Screamin' Eagle and Stage IV badging on the cylinder heads and timer cover highlights the powerplant.

- Black Highlighted.
- We've done your homework - Engineered and tested as a complete collection of high-performance components by the Screamin' Eagle pros at Harley-Davidson.
- This combination is designed for wide open throttle along with high end RPMs and a significant torque increase from a cruising speed.
- Provides thrilling acceleration when twisting the throttle.
- Can be installed without removing the engine from chassis.
- Screamin' Eagle products are not available for sale and are not street legal in all countries. Please contact your local dealer for more information.

SCREAMIN' EAGLE® HIGH VOLUME OIL PUMP & CAM SUPPORT PLATE KIT

A high-performance Milwaukee-Eight® engine deserves high-performance oiling. This new kit includes a Super Sucker oil pump to improve the oil flow rate to critical engine components, and a CNC machined billet aluminum cam plate for precise alignment of a high-performance cam and chain. It's the ideal component combination for a tuned-up Milwaukee-Eight engine. Install and ride hard with confidence.

1 6061 BILLET CAM PLATE

The cam support plate and oil pump are made from heat-treated 6061 billet aluminum with a surface-hardened orange anodized finish. CNC machining ensures precise dimensions and constant material thickness across the plate and pump, enabling perfect alignment of components.

2 660 HI-PRO BUSHINGS

Pressed-in 660 bronze cam and pinion shaft bushings provide enhanced wear resistance under increased loads from high-performance cams for miles of worry-free riding.

3 9% LARGER GEROTOR

The Super Sucker oil pump features a 9% larger gerotor for increased flow at idle and 33% more scavenge capacity compared to a 2020-Later Original Equipment oil pump, for increased performance, efficiency and engine durability.

4 HI-FLOW OIL PASSAGES

The hub-and-spoke oil passage design improves oil flow rate to critical engine components by minimizing restrictions from intersecting passages.

5 ENHANCED FILTERING

Two screens mounted in both pickups and a magnet in between the pickups provide extra oil filtering to remove potential contaminants before they can reach critical upper end components. This is key to promoting long life in high-performance engines.

A. SCREAMIN' EAGLE® PRO HIGH VOLUME OIL PUMP & CAM SUPPORT PLATE KIT

A high-performance Milwaukee-Eight engine deserves high-performance oiling. This new kit(s) includes a Super Sucker oil pump to improve the oil flow rate to critical engine components, and a CNC machined billet aluminum cam plate for precise alignment of high-performance cam and chain. It's the ideal component combination for a tuned-up Milwaukee-Eight engine. Install and ride hard with confidence.

- Heat-treated 6061 billet aluminum cam support plate with an orange anodized finish is strong and rigid to provide superior strength, rigidity, and durability
- CNC-precision machining ensures precise dimensions and constant material thickness across the plate, enabling perfect alignment of cams and chains
- Pressed-in 660 bronze cam bushings provide enhanced wear resistance under increased loads from high-performance cams for miles of worry-free riding
- Oil pump features a 9% larger gerotor for increased flow at idle and 33% more scavenge capacity compared to a 2020-Later Original Equipment oil pump, for increased performance, efficiency and engine durability
- The hub-and-spoke oil passage design improves oil flow rate to critical engine components
- Upgraded filter protection promotes engine durability: Two screens mounted in both pickups and a magnet in between the pickups provide extra oil filtering to remove contaminants before they can reach critical upper end component

62400260

Fits '17-later models equipped with an Air/Oil-Cooled Milwaukee-Eight engine. Does not fit models equipped with VVT.

62400264

Fits '17-later models equipped with Twin-Cooled Milwaukee-Eight engines and '24-later models equipped with Center-Cooled Milwaukee-Eight engines. Does not fit models equipped with VVT.

A. SCREAMIN' EAGLE PRO HIGH VOLUME OIL PUMP & CAM SUPPORT PLATE KIT

B. SCREAMIN' EAGLE MILWAUKEE-EIGHT – HEADBOLT KIT

Details matter when building a high-performance engine. Details like these Screamin' Eagle Milwaukee-Eight Head Bolts – made from 8740 chromoly to be 23 percent stronger than stock bolts. The ideal upgrade for big-displacement and high-compression racing applications or Stage III or Stage IV builds. Lock down your top end, for the long run.

- Black oxide finish with Screamin' Eagle logo provides corrosion resistance and showcases performance.
- Premium 8740 chromoly steel bolts provide a 23% increase in ultimate strength and 23% increase in yield strength compared to Original Equipment head bolts for desirable clamp load on a higher-compression engine.
- Cost savings – these bolts may be reused if the top end is disassembled for upgrades or service
- Perfect upgrade during a Screamin' Eagle Stage III or Stage IV installation.

10400069

Fits '17-later Milwaukee-Eight engines.

B. SCREAMIN' EAGLE MILWAUKEE-EIGHT – HEADBOLT KIT

10. 25600153 119 Stage III.
11. 25600154 122 Stage III.
12. 25600127 128 Stage IV.
13. 25600129 131 Stage IV.
14. 25600162 135 Stage IV.

Shown with:

15. SCREAMIN' EAGLE TIMER COVER BASE

Showcase your bike's performance enhancements with the Screamin' Eagle Timer Cover Base. Start with this black Timer Cover and then select a Screamin' Eagle Stage Upgrade Insert that matches your engine size and Stage upgrades. (Inserts sold separately.)

25600117
Fits '18-later Softail and '17-later Touring and Trike models. Requires separate purchase of Screamin' Eagle Stage Insert. Does not fit center cooled models.

A. SCREAMIN' EAGLE STAGE INSERTS & TIMER COVER BASE

B. SCREAMIN' EAGLE TIMER COVER MEDALLIONS

Brag a little. Let the world know you're running Harley-Davidson® V-Twin performance. These Screamin' Eagle Timer Cover Inserts show off what upgrade you've made and complement a Chrome or Black engine finish..

Fits '23-later Center Cooled models.

1. 14102070 117ci Stage I.
2. 14102071 117ci Stage II.
3. 14102072 121ci Stage I.
4. 14102073 121VVT Stage I.
5. 14102074 122ci Stage III.
6. 14102076 125ci Stage III.
7. 14102078 131ci Stage IV.
8. 14102079 135ci Stage IV.

TWIN CAM POWERTRAIN

Screamin' Eagle® Stage upgrades offer complete street-compliant performance configurations engineered to generate specific torque and horsepower gains. Eliminating all the guesswork and trial-and-error testing normally associated with engine modifications, Stage upgrades include everything you need to enhance your bike's performance.

STAGE I

INTAKE + EXHAUST + TUNING

The easiest and most cost-effective step to improve your motorcycle's performance is to increase the airflow into and out of the engine. A high-flow air cleaner and system-matched slip-on mufflers provide horsepower and torque improvements you can feel throughout the RPM range, and serve as the core components for all performance upgrades. ECM calibration is required to tune the fuel flow and timing required to accommodate the improved airflow.

Stage I upgrade can be installed without engine disassembly. No special tools are required. Requires ECM tuning.

STAGE II

STAGE I + CAM UPGRADE

Adding performance cams to a Stage I equipped bike is the next step to improved performance. Cam choices allow you to tailor the engine's performance to your specific needs. A torque cam offers on-demand throttle response from low to mid RPM at cruising speed. A power cam targets high-RPM, wide-open throttle response that keeps pulling right up to redline. ECM calibration tuning is required to accommodate the increased valve timing, and performance valve springs may be required for high-lift cams.

Stage II upgrade requires minor engine disassembly to replace the cam. Adjustable pushrods allow cam installation without removing the rocker box. Special tools and ECM tuning are required.

STAGE III

STAGE I + CAMS, BIG BORE CYLINDERS & PISTONS

The next step on the performance journey is to build a bigger engine. An increase in engine displacement allows the engine to swallow more air and fuel, a higher-compression piston squeezes the air/fuel into a more volatile mixture, and when combined, generates more power when ignited. A displacement and compression increase provides torque increases throughout the entire RPM range with a 15-25% improvement in the mid-range power. ECM calibration tuning is required to adjust fuel flow and timing to accommodate the increased displacement.

Stage III bolt-on upgrade requires removal of the engine's top end and opening the cam chest. Engine remains in the chassis and no machining is required. Special tools and ECM tuning are required.

STAGE IV

STAGE I + CAMS, BIG BORE CYLINDERS, PISTONS, CYLINDER HEADS & THROTTLE BODY

To maximize the impact of the increased displacement gained with Stage III updates, the addition of free-flowing ported cylinder heads and a big bore throttle body top off the performance build. Designed to satisfy the high-RPM, throttle-twisting rider, the Stage IV update delivers 20-30% increase in power that keeps pulling right up to the redline, without sacrificing mid-range torque. ECM calibration tuning is required to add more fuel, and a higher-lift cam may be required to deliver maximum power.

Stage IV bolt-on upgrade requires removal of the engine's top end and opening the cam chest. Engine remains in the chassis and no machining is required. Special tools and ECM tuning are required.

284 SCREAMIN' EAGLE®

Twin Cam Stage I Upgrade

A. SCREAMIN' EAGLE® HEAVY BREATHER FILTER COVER – TEARDROP

Dress up the Heavy Breather Air Cleaner with this radical cover. Manufactured from forged aluminum and precision CNC-machined and polished, these easy-to-install two-piece covers add a rich custom look. Cover is available in mirror-chrome or cut back gloss black finish to match your customizing direction. Kit includes water-repellent rain sock.

Fits models equipped with Screamin' Eagle Heavy Breather Air Cleaner Kits on Twin Cam and XL model. (except Compact Heavy Breather P/N 28716-10A, Heavy Breather Elite P/N 29400172 and Milwaukee-Eight® Heavy Breather P/N 29400263 or 29400264).

28739-10A Cut Back Gloss Black – End Logo.

28740-10A Chrome – End Logo.

A. SCREAMIN' EAGLE HEAVY BREATHER FILTER COVER – TEARDROP, CHROME

A. SCREAMIN' EAGLE HEAVY BREATHER FILTER COVER – TEARDROP, CUT BACK GLOSS BLACK

B. SCREAMIN' EAGLE HEAVY BREATHER DECORATIVE ENDCAP – WILLIE G SKULL

Add a sinister touch to your Heavy Breather Air Cleaner. Chrome-plated self-adhesive cover features a forward-facing Willie G Skull medallion.

28720-10

Fits models equipped with Screamin' Eagle Heavy Breather Air Cleaner Kits (except Compact Heavy Breather P/N 28716-10A, Heavy Breather Elite P/N 29400172 and Milwaukee-Eight Heavy Breather P/N 29400263 or 29400264).

C. SCREAMIN' EAGLE HEAVY BREATHER DECORATIVE MEDALLION

Add the finishing touch to your Heavy Breather Air Cleaner by installing this medallion. Featuring a bright chrome-plated die-cast base and contrasting black inlay with diamond-cut Screamin' Eagle script. Easy to install.

29017-09

Fits models equipped with Screamin' Eagle Heavy Breather Air Cleaner Kits (except Compact Heavy Breather P/N 28716-10A, Heavy Breather Elite P/N 29400172 and Milwaukee-Eight Heavy Breather P/N 29400263 or 29400264).

B. SCREAMIN' EAGLE HEAVY BREATHER DECORATIVE ENDCAP – WILLIE G SKULL

C. SCREAMIN' EAGLE HEAVY BREATHER DECORATIVE MEDALLION

D. THROTTLE BODY COVER

This cover dresses the area between the Twin Cam cylinders for a custom look. The formed cover hugs the contour and conceals the electronic control module throttle body for a clean appearance. Available in your choice of mirror chrome or gloss black finish. Easy-to-install kit includes gaskets.

Fits '14-'15 FLSTNSE, '11-'12 FLSTSE, '13-'14 FXSBSE, and '16-'17 FXDLS and Softail®, '08-'16 Touring and Trike models equipped with Screamin' Eagle Heavy Breather or Burst Air Cleaner Kit.

61300109 Chrome.

61300110 Gloss Black.

SCREAMIN' EAGLE® 285

Twin Cam Stage I Upgrade

E. SCREAMIN' EAGLE® VENTILATOR ELITE AIR CLEANER KIT

This low-profile oval air cleaner features a 360° exposed filter element and a cast back plate designed to provide maximum airflow to the throttle body. This easy-to-install air cleaner produces significant performance gains, while the sleek center bar design cover with carbon fiber inserts add a luxurious touch. This complete kit includes low-profile air cleaner cover, high-flow filter element, back plate, diamond-cut Screamin' Eagle medallion, protective rain sock and all required installation hardware. Street compliant when used with stock mufflers. 50-State U.S. EPA compliant.

Fits '16-'17 FXDLS and Softail® and '09-'16 Touring and Trike models. Also fits '11-'17 CVO™ Softail models. All EFI models require ECM calibration for proper installation. '17 models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately).

29400217 Chrome.

29400218 Gloss Black.

Fits '16-'17 FXDLS and Softail, '14-'17 CVO Softail and '14-'16 Touring and Trike models equipped with Screamin' Eagle 58mm Throttle Body. All models require ECM calibration for proper installation. '17 models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately).

29400219 Chrome.

29400230 Gloss Black.

Also available:

SCREAMIN' EAGLE VENTILATOR ELITE AIR CLEANER COVER

Add a luxurious finishing touch to your Ventilator Air Cleaner. Designed as a direct replacement for the Screamin' Eagle and CVO Ventilator Air Cleaners, this easy-to-install cover features a sleek center bar design surrounded with carbon fiber inserts. Kit includes low-profile cover, diamond-cut Screamin' Eagle medallion and chrome mounting hardware.

Fits '10-'17 Dyna®, '09-'16 Softail, '09-'16 Touring and Trike models equipped with Ventilator Air Cleaner Kits. Also fits Dyna High Output 103 and CVO models with Original Equipment Ventilator Air Cleaner.

61300516 Chrome.

61300517 Gloss Black.

286 SCREAMIN' EAGLE®

Twin Cam Stage I Upgrade

A. SCREAMIN' EAGLE® HIGH-FLOW AIR CLEANER – TWIN CAM

The High-Flow Air Cleaner Kit provides increased airflow to boost the power of your fuel-injected model. Kit features a one-piece cast back plate with integral breather and mounting brackets for simplified installation and a synthetic washable air cleaner element that does not require oiling. Available with a brilliant chrome or black back plate, this round air cleaner element can be dressed with most Original Equipment or accessory air cleaner covers. Or choose to flaunt your performance gains with the open element look, and finish it off with a Rain Sock Kit P/N 28728-10 and custom Air Cleaner Trim from one of the Harley-Davidson decorative collections. This kit includes air cleaner, back plate, breather and all required hardware. 50-State U.S. EPA compliant.

Fits '16-'17 Softail® and '14-'16 Touring and Trike models (except CVO™ Touring) with Original Equipment 50mm Throttle Body. All models require ECM calibration for proper installation. '17 models require recalibration with Screamin' Eagle® Pro Street Tuner (sold separately).

29400234 Chrome.
29400233 Texture Black.

Fits '08-'15 Softail models (except CVO Softail). Also fits '08-'17 Dyna® models (except '16-'17 FXDLS) equipped with accessory Air Cleaner Cover. Also fits '04-'07 EFI Dyna, '01-'07 EFI Softail, and '02-'07 EFI Touring. FXS, FLS, FLSTSB and '13-'17 FXDB models require separate purchase of Gasket P/N 29591-99 and Screw P/N 29703-00. All models require ECM calibration for proper installation. '17 models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately).

29400240 Chrome.
29400239 Texture Black.

Fits '08-'13 Touring and Trike models (except CVO Touring) with Original Equipment 50mm throttle body. All models require ECM calibration for proper installation.

29400238 Chrome.
29400237 Texture Black.

Fits '16-'17 FXDLS and Softail, '14-'17 CVO Softail, and '14-'16 Touring and Trike models equipped with Screamin' Eagle 58mm EFI Throttle Body. Requires separate purchase of an Accessory Air Cleaner Cover. All models require ECM calibration for proper installation. '17 models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately).

29400222 Raw Aluminium.

D. SCREAMIN' EAGLE AIR CLEANER BACK PLATE KITS

SCREAMIN' EAGLE® 287

Twin Cam Stage I Upgrade

B. SCREAMIN' EAGLE® AIR CLEANER TRIM

Dress your air cleaner in the traditional H-D orange and black. Easy-to-install trim features Screamin' Eagle script set against a gloss black background.

61300299

Fits '16-'17 Softail® (except FLSTFBS and FXSE) and '14-'16 Touring and Trike models with Original Equipment air cleaner cover. Does not fit CVO™ models.

29503-07

Fits '07 Dyna®, '07-'15 Softail (except FLSTSB and FXS), '07-'13 Touring and Trike models models with Original Equipment air cleaner cover.

C. SCREAMIN' EAGLE AIR CLEANER RAIN SOCK

Add the open-element look to your Screamin' Eagle High-Flow style Air Cleaner. This easy-to-install kit allows you to replace the traditional Original Equipment air cleaner cover with custom inserts from one of the H-D Decorative Collections. Kit includes a breathable mesh cover with classic Bar & Shield logo that stretches over the filter to maximize airflow while protecting the exposed elements from the rain. Fits traditional cone-shaped air cleaner elements featured in many Screamin' Eagle Twin Cam Stage Kits.

28728-10

Fits Screamin' Eagle Round High-Flow Air Cleaner Kits.

D. SCREAMIN' EAGLE AIR CLEANER BACK PLATE KITS

Finished in brilliant chrome or wrinkle black, these replacement back plates complement the finish of your engine. Cast back plate design features integral breather and mounting brackets for simplified installation.

Fits models equipped with Screamin' Eagle High-Flow Air Cleaner Kits. Installation may require separate purchase of (2) O-Ring P/N 11292, (2) Breather Tube P/N 29557-05 and (2) Breather Screw P/N 29465-99. See your Dealer for details.

Fits '99-'07 Dyna, '99-'15 Softail (except '11-later CVO) and '02-'07 Touring models.

29510-05 Chrome.

29586-06 Wrinkle Black.

Fits '08-'15 Dyna, '08-'13 Touring and Trike models with Original Equipment Teardrop Air Cleaner Cover.

29319-08 Wrinkle Black.

TWIN CAM STAGE II UPGRADE

Camshafts are a fundamental ingredient in the performance recipe, because they control the timing and duration of all major engine events. They are the primary means by which you can tune your engine's horsepower and torque output. Every cam has unique lift and overlap performance characteristics, which means you need to select cams based on exactly the kind of power you're looking for.

A. SCREAMIN' EAGLE® TWIN CAM PERFORMANCE CAMS

Kits include front and rear cams. Splined rear cam is included for exceptional load handling capability. Gaskets and bearings not included. Cam Installation Kit P/N 17045-99C (sold separately) includes all required gaskets, bearings and seals for proper installation. Dealer installation is recommended and special tools are required for proper installation.

SE-255 CAM KIT

The ultimate in torque cams, this cam offers substantial increase in low end torque for engines up to 110 cubic inches with compression ratios up to 10 to 1. The low end torque increases are great for heavy bikes or for the person who routinely shifts below 4500 RPM and wants the power available to pass without downshifting. The cam still makes peak power above 5000 RPM so people with lighter bikes will enjoy the torque increases without feeling like the bike runs out of air at higher engine speeds. 50-State U.S. EPA compliant.

25638-07

For use on '09-'13 Dyna®, Softail®, and '09-'13 Touring and Trike models with 103CI and 110CI engines. All models require ECM calibration for proper installation. Labor cost not included. See Dealer for details.

SE-259E CAM KIT

Developed specifically for big displacement Twin Cam engines, this cam has a modern lobe design that allows for higher valve lifts for a given duration. A high-lift version of the SE-211 camshaft, this cam works great with 103-cubic-inch and larger engines with free-flowing intake and exhaust. It can be used with stock heads (updated with race springs) and high-compression pistons for even more torque than a SE-211 cam or can be coupled with any of the performance heads to realize the full power potential. 50-State U.S. EPA compliant.

25482-10

For use on '11-'15 103CI and 110CI Touring and Trike models. Installation requires separate purchase of Performance Valve Spring Kit P/N 18013-03A. All models require ECM calibration for proper installation. Labor cost not included. See Dealer for details.

SE-585 CAM KIT

This cam is a great match for riders of heavy Touring bikes looking for big torque at the low end. Just a quick downshift to fourth gear results in an effortless pass of that slow-moving tractor-trailer ahead of you. This cam provides an early hit of torque at the low end of the RPM spectrum. A unique combination of lift, cam lobe duration and an enhanced cam profile ramp provides a performance boost you can feel. The cam's QRD (Quiet Ramp Design) delivers high torque throughout the RPM range while reducing valve train noise. 50-State U.S. EPA compliant.

25400117

For use on '14-'16 Touring models with the use of a 58mm Throttle Body. Also fits '14-'16 CVO™ Touring models with or without the use of a 58mm Throttle Body. Does not fit Trike models. Installation requires separate purchase of Performance Valve Spring Kit P/N 18013-03A. All models require ECM calibration for proper installation. Labor cost not included. See Dealer for details.

NOTE: Separate purchase of Cam Drive Retention Kit P/N 25566-06 and Cam Spacer Kit P/N 25928-06 may be required. These kits contain five different spacers to achieve proper sprocket alignment. Individual spacers can be purchased separately.

Twin Cam Stage II Upgrade

B. SCREAMIN' EAGLE® PREMIUM TAPERED QUICK-INSTALL ADJUSTABLE PUSHRODS

These premium pushrods are tapered for enhanced clearance at the cylinder head, allowing the use of higher lift cams. The one-piece chrome moly tube adds rigidity and durability and the threaded adjustment feature provides easy cam installation without removing the cylinder heads or rocker boxes. To simplify adjustment, the tube features six flats, with one flat marked with a large dot for tracking the adjustment. The threaded rod features 4 flats to reduce wrench swing. Each pushrod features the Screamin' Eagle logo and is marked for "Intake" or "Exhaust." Kit includes 4 pushrods and required pushrod tubes.

Fits '99-'17 Twin Cam-equipped models.

17900032 With Gloss Black Covers.

18404-08 With Chrome Covers.

C. SCREAMIN' EAGLE HIGH-CAPACITY TAPPETS

Screamin' Eagle Tappets feature large high-capacity needles in the roller bearing assembly to improve reliability when operating with high-lift cams, high-pressure valve springs and in high-RPM applications. The 25% larger needle bearings increase the dynamic load rating by approximately 20% when compared to the Original Equipment Twin Cam tappets. The unique design delivers superior tappet life in performance applications. Set of 4.

18572-13

Fits '17-later Milwaukee-Eight® Engine equipped models, '00-'22 XL and XR models and '99-'17 Twin Cam-equipped models.

D. SCREAMIN' EAGLE PERFORMANCE VALVE SPRING KIT*

This performance beehive-shaped Valve Spring Kit will permit the Sportster® engine to rev to 7000 RPM. The unique ovate wire yields increased performance from a compact spring design. The installed spring pressure is increased to 208 lbs and allows a maximum lift of .590". Complete kit includes springs, upper collars and keepers and lower collars with integral valve seals.

18013-03A

Fits '04-'22 XL, XR and '05-'17 Twin Cam-equipped models. Does not fit FXDLS, FLSS, FLSTFBS or Screamin' Eagle Performance Heads with .3125" diameter valves.

E. PUSHROD COVER KIT – GLOSS BLACK

Complete the Dark Custom look. These covers replace existing chrome covers to give your bike a blacked-out appearance down to the smallest detail. Pushrod covers are finished in gloss black and the kit includes four bottom cover tubes and the four upper clips. Installation retains the Original Equipment chrome short center tube to create a high-contrast accent. Cover Kit can be installed on engines already equipped with Adjustable Pushrods or can be installed by removing rocker box covers, rocker arms and non-adjustable pushrods. Consult your dealer or service manual for installation.

17900033 Covers Only.

Fits '99-'17 Twin Cam-equipped models. Requires prior installation of Adjustable Pushrods or removal of rocker box covers, rocker arms and fixed-length pushrods.

F. PUSHROD TUBE COLLARS – GLOSS BLACK

Manufactured from Original Equipment components for perfect fit and function, these Pushrod Collars complete your Twin Cam engine's conversion to the total blacked-out look. Covers replace the chrome-finished factory covers, and fit with stock or Screamin' Eagle Quick-Install Pushrods.

17900076

Fits '84-'00 Evolution® 1340 and '99-'17 Twin Cam-equipped models. Installation requires use of Adjustable Pushrods or removal of rocker box covers, rocker arms and fixed-length pushrods.

***CAUTION:** Proper valve spring to rocker cover clearance must always be verified during installation of Screamin' Eagle Valve Spring Kits. Failure to have adequate clearance may result in engine damage.

290 SCREAMIN' EAGLE®

Twin Cam Stage II Upgrade

A. SCREAMIN' EAGLE® BILLET CAM SUPPORT PLATE WITH HIGH-VOLUME OIL PUMP

A great upgrade for any performance motor. The Billet Cam Support Plate is manufactured from billet aluminum with pressed-in bronze bushings and is pre-assembled with the crankshaft bushing and oil pressure relief valve. Aluminum is specified at 6061 billet plate, heat-treated to T6 specifications with a surface-hardened anodized finish to provide superior strength, rigidity and durability. CNC-precision machining ensures precise dimensions and constant material thickness across the plate, enabling perfect alignment of cams and chains. Cam bushings are made from 660 bronze materials to provide enhanced wear resistance and to stand up to increased loads from the high lift cams common in large displacement motors. The improved Screamin' Eagle high-flow oil pump provides higher pressure when the oil is hot to keep pressure drops to a minimum and increases the oil supply by 16% and the scavenging by 29% over the '06-'17 Original Equipment oil pump.

25282-11

Fits '06-'17 Dyna® and '07-'17 Softail®, and '07-'16 Touring and Trike models. Installation requires separate purchase of Cam Service Kit P/N 17045-99D and Drive Gear Retention Kit P/N 25566-06.

A. SCREAMIN' EAGLE BILLET CAM SUPPORT PLATE WITH HIGH-VOLUME OIL PUMP

B. SCREAMIN' EAGLE HYDRAULIC CAM CHAIN TENSIONER AND HIGH-FLOW OIL PUMP UPGRADE KIT

This kit updates the cam chain tensioner of your Twin Cam 88® engine to the latest design, as featured on the Twin Cam 96™ engine. The billet cam support plate has been designed to allow the installation of the Twin Cam 96™ hydraulic cam chain tensioner to Twin Cam 88-equipped models. These Hydraulic Cam Chain Tensioners will significantly outlast the spring-loaded tensioners and are an ideal addition to an engine modified for improved performance. In addition, '02-'06 models utilize a Twin Cam 96 single row front roller chain and sprocket (included in kit). '99-'01 models use Original Equipment front silent chain and sprocket to retain the cam position sensor function. The kit includes an improved Screamin' Eagle High-Flow Oil Pump that provides increased oil pressure at high operating temperatures. This kit increases the oil supply by 23% and scavenging by 50% when compared to the '99-'05 Original Equipment oil pump and reduces operating temperature of bearings to improve bearing life.

25284-11

Fits '99-'05 Dyna, '00-'06 Softail and '99-'06 Touring models. Installation requires separate purchase of Spacer Kit P/N 25285-08, Cam Service Kit P/N 17045-99D and Drive Gear Retention Kit P/N 25566-06.

B. SCREAMIN' EAGLE HYDRAULIC CAM CHAIN TENSIONER AND HIGH-FLOW OIL PUMP UPGRADE KIT

C. SCREAMIN' EAGLE HIGH-PERFORMANCE INNER CAM BEARINGS

High-performance Inner Cam Bearings are a smart upgrade when installing high-lift cams in a race bike. These bearings provide increased load capacity and extend the engine life in extreme racing conditions. Kit includes two bearings required to complete one Twin Cam engine.

24017-10

Fits '99-'05 Dyna, '00-'06 Softail and '99-'06 Touring models.

24018-10

Fits '06-'17 Dyna, '07-'17 Softail and '07-'16 Touring and Trike models.

SCREAMIN' EAGLE® 291

STAGE III & IV UPGRADES

Screamin' Eagle® Stage Kits offer complete street-compliant performance configurations engineered to help you generate specific torque and horsepower gains. Eliminating all the guesswork and trial-and-error testing normally associated with engine modifications, Stage Kits include everything you need to enhance your bike's performance, including big-bore cylinders, high-compression pistons, performance cams and high-flow air cleaners.

BOLT-ON TWIN CAM™ II BIG BORE STAGE KITS

HIGH-STRENGTH CYLINDER LINERS ARE MACHINED TO SLIP INTO THE STOCK CASE OPENING

FEATURES

BOLT-ON BIG BORE CYLINDERS

In the past, the only way to increase the bore of your 103- or 110-cubic-inch Twin Cam V-Twin motor was to tear down the motor and re-bore the engine cases to fit larger bore cylinder spigots. It was a labor-intensive and expensive process. The Screamin' Eagle team has engineered a 4" Big Bore Cylinder and Piston package that increase the internal bore from 3-7/8" to 4", without increasing the outside diameter of the cylinder spigot. The cylinder slips into the existing case bore without modification.

SCREAMIN' EAGLE

292 SCREAMIN' EAGLE®

Twin Cam Stage III Upgrade

STAGE III

SCREAMIN' EAGLE® TWIN CAM STAGE III KIT – 103CI TO 110CI

Build a fast, reliable 110-cubic-inch Twin Cam hauler without having to remove the motor from the chassis. This Stage III Street Performance Kit combines system-matched Screamin' Eagle big bore cylinders, high-compression pistons and performance cams and valve train components with the Original Equipment cylinder heads for a cost-effective boost in torque and performance. The exclusive bolt-on 4.0" cylinders are engineered with high-strength slim-wall spigots that slip into the factory crank case without any additional machining. The 4" flat top pistons team with the stock cylinder heads to produce a performance-enhancing 10.2:1 compression ratio (10.4:1 on Twin-Cooled™ equipped models), and the high-lift SE-585 cam produces a boost in torque throughout the RPM range. 50-State U.S. EPA compliant.

Kit includes:
 Screamin' Eagle 4.0" Bolt-On Cylinders
 Forged 10.2:1 Compression Pistons and Rings
 SE-585 Cams
 High Performance Valve Springs
 Perfect-Fit Pushrods
 Screamin' Eagle High-Capacity Roller Tappets
 Top End and Cam Cover Gaskets
 Heavy Duty Clutch Spring

92500035 Black Highlighted.
 Fits '16-'17 Softail® and '14-'16 Touring models. Does not fit Trike models, FLSS, FLSTFBS, CVO™ 110 models or models with engine cases that have been machined to accept large-bore cylinders. Requires separate purchase of Cam Drive Retention Kit P/N 25566-06. Cam Spacer Kit P/N 25928-06 is recommended. Twin-Cooled™ models require separate purchase of model-specific head gaskets. All models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately).

STAGE IV

SCREAMIN' EAGLE® 293

Twin Cam Stage IV Upgrade

SCREAMIN' EAGLE® TWIN CAM TIRE SHREDDER KIT – 103CI TO 110CI

This comprehensive kit provides a complete package of matched components that allow you to build a high-performance 110CI Twin Cam without impacting the factory warranty. The unique Screamin' Eagle 4.0" big bore cylinders are engineered to slip into the engine cases without case machining or modification, so the engine stays in the chassis during the build. 50-State U.S. EPA compliant.

Kit includes:
 Screamin' Eagle 4.0" Bolt-On Cylinders
 Forged 10.2:1 High Compression Pistons and Rings
 Screamin' Eagle 58mm Throttle Body
 High Flow Fuel Injectors (5.3 g/s)
 Screamin' Eagle CNC-Ported Cylinder Heads
 SE-259E Cams
 Perfect-Fit Pushrods
 Screamin' Eagle High-Capacity Roller Tappets
 Top End and Cam Cover Gaskets
 Heavy Duty Clutch Spring

92500038
 Fits '14-'16 Touring models. Does not fit Twin-Cooled™ equipped models. Does not fit Trike models, CVO™ 110 models or models with engine cases that have been machined to accept large-bore cylinders. Requires separate purchase of accessory 58mm air cleaner and Cam Drive Retention Kit P/N 25566-06. Cam Spacer Kit P/N 25928-06 is recommended. All models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately).

Twin Cam 103HO Stock vs. 103 to 110CI Stage III with SE CVO Mufflers

294 SCREAMIN' EAGLE®

Twin Cam Stage IV Upgrade

STAGE IV

SCREAMIN' EAGLE® TWIN CAM CONVERSION KIT – 103CI TO 110CI

Bring your Twin Cam motorcycle up to the same 110-cubic-inch displacement and power output as the CVO™ Screamin' Eagle® models without expensive machining or removing the engine from the chassis. This street compliant kit combines the proven SE-255 cams and cylinder heads of the CVO model with exclusive Screamin' Eagle bolt-on 4.0" cylinders and system-matched pistons to deliver high torque and reliable everyday performance. The automatic compression release-equipped cylinder heads and the flat top forged pistons combine to develop a 9.3:1 compression ratio for easy starting, and the Screamin' Eagle lifters ensure quiet reliable valve train operation. 50-State U.S. EPA compliant.

Kit includes:
 Screamin' Eagle 4.0" Bolt-On Cylinders
 Forged 9.3:1 Compression Pistons and Rings
 CVO 110 Cylinder Heads
 SE-255 Cams
 High-Capacity Roller Tappets
 Top End and Cam Cover Gaskets
 Heavy Duty Clutch Spring
 Cam Spacer Kit P/N 25928-06 is recommended

92500032 Black Highlighted.
 Fits '14-'16 FLHTCU, FLHTCUL, FLHTK, FLHTKL and FLTRU models with Twin-Cooled engines. Does not fit Trike models, CVO 110 models, or models with engine cases that have been machined to accept large bore cylinders. Requires separate purchase of Screamin' Eagle high-flow air cleaner. Installation requires separate purchase of Primary Cover Gasket. Cam Drive Retention Kit P/N 25566-06. Cam Spacer Kit P/N 25928-06 is recommended. All models require ECM calibration for proper installation.

STAGE IV

SCREAMIN' EAGLE® 295

Twin Cam Stage IV Upgrade

SCREAMIN' EAGLE® TWIN CAM BOLT-ON 110CI TO 117CI KIT

Turn your Original Equipment 110-cubic-inch model into a fast, reliable 117-cubic-inch Twin Cam hauler without having to remove the motor from the chassis. This Street Performance Kit combines system-matched Screamin' Eagle big bore cylinders, forged pistons and performance cams and valve train components with the Original Equipment cylinder heads for a cost-effective boost in torque and performance. The exclusive bolt-on 4.125" cylinders are engineered with high-strength slim-wall spigots that slip into the factory 110CI crank case without any additional machining. The 4.125" flat top pistons team with the stock cylinder heads to produce a performance-enhancing 9.9:1 compression ratio, and the high-lift SE-259E cam produces a boost in torque throughout the RPM range. 50-State U.S. EPA compliant.

Kit includes:
 Screamin' Eagle 4.125" Bolt-On Cylinders
 Forged 9.9:1 Compression Pistons and Rings
 Screamin' Eagle 58mm Throttle Body
 High Flow Fuel Injectors (5.3 g/s)
 SE-259E Cams
 Perfect-Fit Pushrods
 Screamin' Eagle High-Capacity Roller Tappets
 Screamin' Eagle Inner Cam Bearing Kit
 Top End and Cam Cover Gaskets

Fits '14-'17 CVO™ 110CI Softail® and '14-'16 CVO™ Touring models. Also fits '16-'17 110CI FLSS, FLSTFBS and FXDLS models. Requires purchase of accessory 58mm air cleaner and Cam Drive Retention Kit P/N 25566-06 (except models equipped with Screamin' Eagle Heavy Breather Elite Performance Air Cleaner Kits). Models equipped with Ventilator Air Cleaner require separate purchase of 58mm Air Cleaner Backplate P/N 29400038. All models require ECM calibration for proper installation. '16-'17 FXDLS and all '17 models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately).

92500055 Granite Finish.
92500054 Black Finish.

SCREAMIN' EAGLE

SPORTSTER® POWERTRAIN

Screamin' Eagle® Stage upgrades offer complete street-compliant performance configurations engineered to generate specific torque and horsepower gains. Eliminating all the guesswork and trial-and-error testing normally associated with engine modifications, Stage upgrades include everything you need to enhance your bike's performance.

STAGE I

INTAKE + EXHAUST + TUNING

The easiest and most cost-effective step to improve your motorcycle's performance is to increase the airflow into and out of the engine. A high-flow air cleaner and system-matched slip-on mufflers provide horsepower and torque improvements you can feel throughout the RPM range, and serve as the core components for all performance upgrades. ECM calibration is required to tune the fuel flow and timing required to accommodate the improved airflow.

Stage I upgrade can be installed without engine disassembly. No special tools are required. Requires ECM tuning.

Street legal and/or street compliant statements refer to product meeting 50-State emissions and noise standards in the United States. The street legal and/or street compliant statements may not apply to markets outside of the United States.

*14-'22 XL1200 Stage II with Heavy Breather A/C & Street Cannon Mufflers

STAGE II

STAGE I + CAM UPGRADE

Adding performance cams to a Stage I equipped bike is the next step to improved performance. Cam choices allow you to tailor the engine's performance to your specific needs. A torque cam offers on-demand throttle response from low to mid RPM at cruising speed. A power cam targets high-RPM, wide-open throttle response that keeps pulling right up to redline. ECM calibration tuning is required to accommodate the increased valve timing, and performance valve springs may be required for high-lift cams.

*14-'22 XL1200 Stage II with Heavy Breather A/C & Street Cannon Mufflers

Stage II upgrade requires minor engine disassembly to replace the cam. Special tools and ECM tuning are required.

STAGE IV

STAGE I + CAMS, PISTONS, CYLINDER HEADS & THROTTLE BODY

For maximum performance improvement, the addition of high-compression pistons, free-flowing ported cylinder heads and a big bore throttle body top off a performance build. The large-diameter throttle body and port-matched intake manifold deliver huge volumes of fuel and air to the engine, the smooth passages and larger valves easily dump the mixture into the engine and the high compression pistons squeeze the air/fuel into a more volatile vapor. When ignited, the result is a major power increase. Designed to satisfy the high-RPM, throttle-twisting rider, the Stage IV update delivers 20-30% increase in power that keeps pulling right up to the redline, without sacrificing mid-range torque. ECM calibration tuning is required to add more fuel, and a higher-lift cam may be required to deliver maximum power.

*1200 Stage IV with High-Flow A/C & Street Cannon Mufflers

Stage IV bolt-on upgrade requires removal of the engine's top end and opening the cam chest. Engine remains in the chassis and no machining is required. Special tools and ECM tuning are required.

Street legal and/or street compliant statements refer to product meeting 50-State emissions and noise standards in the United States. The street legal and/or street compliant statements may not apply to markets outside of the United States.

298 SCREAMIN' EAGLE®

Sportster® Stage I Upgrade

A. SCREAMIN' EAGLE® HEAVY BREATHER PERFORMANCE AIR CLEANER KIT

This high-flow forward-facing exposed element Air Cleaner Kit is sure to turn heads at the starting line. Featuring a polished elbow and exposed filter, this unique air cleaner system offers improved performance and airflow when compared to the stock or Screamin' Eagle High-Flow Air Cleaner. The washable and rechargeable filter features a bright chrome end cap with a laser-engraved Screamin' Eagle logo. Intake tube and back plate are made from die-cast lightweight aluminum and are polished and chrome-plated or painted black for a brilliant finish. The back plate features integral breathers and sealed breather bolt plug. Kit includes a water-repellent rain sock and all mounting hardware. 50-State U.S. EPA compliant.

Fits '08-'22 XL models with Original Equipment Throttle Body. All models require ECM calibration for proper installation. '17-later models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately). Pending approval for use in California on '21 models. Refer to H-D.com/shop for status.

29080-09A Gloss Black.

Fits '14-'22 XL1200 model equipped with Screamin' Eagle High Flow 58mm Throttle Body. All models require ECM calibration for proper installation. '17-later models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately).

29400227A Gloss Black.

NOTE: The washable and rechargeable filter uses a special coating to help filter fine particles from the incoming air. With time, the oil in the filter will dissipate and the element will begin to turn gray. The original red color can be restored with an application of K&N® Air Filter Oil.

A. SCREAMIN' EAGLE HEAVY BREATHER PERFORMANCE AIR CLEANER KIT – GLOSS BLACK

B. SCREAMIN' EAGLE HEAVY BREATHER FILTER COVER – TEARDROP, CHROME

B. SCREAMIN' EAGLE HEAVY BREATHER FILTER COVER – TEARDROP, CUT BACK GLOSS BLACK

F. SCREAMIN' EAGLE AIR CLEANER RAIN SOCK (SHOWN WITH #1 SKULL AIR CLEANER TRIM)

G. MUFFLER END CAPS – 3.25"

SCREAMIN' EAGLE® 299

Sportster® Stage I Upgrade

D. SCREAMIN' EAGLE® OVAL HIGH-FLOW AIR CLEANER

The XL High-Flow Air Cleaner Kit provides increased airflow to boost the power of your fuel-injected Sportster® model. The complete kit features a composite air cleaner back plate, air cleaner cover adapter, a high-flow washable synthetic media filter element that does not require oiling and a breather system that routes gasses and excess oil directly into the intake. Kit also includes cover trim and all mounting hardware. Street compliant when used with stock mufflers. 50-State U.S. EPA compliant.

29782-07

Fits '07-'22 XL models with Original Equipment throttle body and oval air cleaner cover. All models require ECM calibration for proper installation. '17-later models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately). Pending approval for use in California on '21 models. Refer to H-D.com/shop for status.

E. SCREAMIN' EAGLE ROUND HIGH-FLOW AIR CLEANER

The XL High-Flow Air Cleaner Kit provides increased airflow to boost the power of your fuel-injected Sportster model. Available with brilliant chrome or gloss black back plate, this Round Air Cleaner transforms the appearance of your Evolution powerplant and allows you to replace the Original Equipment oval air cleaner cover with your choice of accessory round covers. Or choose to flaunt your performance gains with the open element look, finished with custom Air Cleaner Trim from one of the Harley-Davidson decorative collections. Kit includes one-piece cast back plate, high-flow washable air filter element and all required hardware. Street compliant when used with stock mufflers. 50-State U.S. EPA compliant.

Fits '07-'22 XL models with Original Equipment throttle body and round air cleaner cover or round air cleaner Trim. Proper installation with round air cleaner cover requires separate purchase of Air Cleaner Filter Gasket P/N 25700127. All models require ECM calibration for proper installation. '17-later models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately). Pending approval for use in California on '21 models. Refer to H-D.com/shop for status.

29000019A Chrome.

29000009A Black.

F. SCREAMIN' EAGLE AIR CLEANER RAIN SOCK

Add the open-element look to your Screamin' Eagle High-Flow style Air Cleaner. This easy-to-install kit allows you to replace the traditional Original Equipment air cleaner cover with custom inserts from one of the H-D Decorative Collections. Kit includes a breathable mesh cover with classic Bar & Shield logo that stretches over the filter to maximize airflow while protecting the exposed element from the rain. Fits traditional cone-shaped air cleaner elements featured in many Screamin' Eagle Twin Cam Stage Kits.

28728-10

Fits Screamin' Eagle Round High-Flow Air Cleaner Kits.

G. MUFFLER END CAPS – 3.25"

These easy-to-install caps allow you to finish your 3.25" Screamin' Eagle mufflers your way. Sold in pairs. Installation hardware included.

Fits '14-'22 XL and '07-'17 Softail® models equipped with Screamin' Eagle 3.25" Street Cannon Mufflers.

65100044 Chrome – Slash Up/Down/Out.

Street legal and/or street compliant statements refer to product meeting 50-State emissions and noise standards in the United States.

300 SCREAMIN' EAGLE®

Sportster® Stage II Upgrade

A. SCREAMIN' EAGLE® PERFORMANCE II SE-585 CAM KIT- SPORTSTER®

The high-lift full throttle cam kit provides significant horsepower gains when coupled with high-flowing exhaust and intake components, and is a great fit for full-throttle horsepower junkies. 50-State U.S. EPA compliant. (exception below).

25400125

Fits '14-'22 XL1200 models. Requires installation of Performance Cylinder Heads P/N 16500074 or 16500347, or upgrade of Original Equipment heads with Performance Valve Spring Kit P/N 18013-03A. All EFI models require ECM calibration for proper installation. '17-later models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately). Labor cost not included. See Dealer for details. Does not fit '22 California models.

B. SCREAMIN' EAGLE HIGH-CAPACITY TAPPETS

Screamin' Eagle Tappets feature large high-capacity needles in the roller bearing assembly to improve reliability when operating with high-lift cams, high-pressure valve springs and in high-RPM applications. The 25% larger needle bearings increase the dynamic load rating by approximately 20% when compared to the Original Equipment Twin Cam tappets. The unique design delivers superior tappet life in performance applications. Set of 4.

18572-13

Fits '17-later Milwaukee-Eight® Engine equipped models, '00-'22 XL and XR models and '99-'17 Twin Cam-equipped models.

C. SCREAMIN' EAGLE PERFORMANCE VALVE SPRING KIT

This performance beehive-shaped Valve Spring Kit will permit the Sportster® engine to rev to 7000 RPM. The unique ovate wire yields increased performance from a compact spring design. The installed spring pressure is increased to 208 lbs and allows a maximum lift of .590". Complete kit includes springs, upper collars and keepers and lower collars with integral valve seals.

18013-03A

Fits '04-'22 XL, XR and '05-'17 Twin Cam-equipped models. Does not fit FXDLs, FLSS, FLSTFBS or Screamin' Eagle Performance Heads with .3125" diameter valves.

A. SCREAMIN' EAGLE PERFORMANCE II SE-585 CAM KIT- SPORTSTER

SCREAMIN' EAGLE® 301

Sportster® Stage IV Upgrade

SCREAMIN' EAGLE® SPORTSTER® CONVERSION KIT - 883CC TO 1200CC*

Make your Iron 883™ model roar. This complete conversion kit will alter the personality of your 883-equipped Sportster® model. Designed to bring your XL883 model up to XL1200 specifications. No case machining is required for installation. 50-State U.S. EPA compliant.

Kit includes:

- Sportster High-Flow Air Cleaner Kit
- XL1200 Cylinder Heads
- XL1200 Cylinders
- XL1200 Pistons and Rings
- Heavy Duty Clutch Spring
- Top End Gasket Kit

29784-07 Black Highlighted. Fits 50-state '07-'22 XL883 models. All models require ECM calibration for proper installation. '17-later models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately).

30003-10 Black Non-Highlighted. Fits 50-state '08-'22 XL883 models. All models require ECM calibration for proper installation. '17-later models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately).

Sportster® Stage IV Upgrade

STAGE IV

SCREAMIN' EAGLE® SPORTSTER® STAGE IV KIT – 1200CC TO 1200CC

Maximize the horsepower and torque available for your street compliant Sportster® model. This complete engine package includes all the components you need to build a high-performance ride while still retaining the original factory warranty. Installation does not require removal of the powertrain from the chassis. 50-State U.S. EPA compliant. **Pending regulatory approval for '20-'22 models. Refer to the product information at www.H-D.com/shop for status.**

Kit includes:

- CNC-Ported Cylinder Heads with Performance Valve Springs
- Screamin' Eagle XL SE-585 Cams
- Forged Hi-Compression 10.5:1 Pistons and Rings
- 58mm Throttle Body and Intake Manifold
- Top End Gasket Kit

Fits '14-'22 XL1200 models. Requires separate purchase of 58mm compatible accessory air cleaner. All models require ECM calibration for proper installation. '17-later models require recalibration with Screamin' Eagle Pro Street Tuner (sold separately). Pending approval for use in California on '21-later models. Refer to H-D.com/shop for status.

SCREAMIN' EAGLE® 303

Air Filters

A. SCREAMIN' EAGLE® HIGH-FLO K&N® REPLACEMENT AIR FILTER ELEMENT

K&N® replacement air filters are engineered to improve airflow for increased horsepower and quicker acceleration. K&N filters provide excellent filtration, and because they are washable and reusable, you can clean the filter whenever conditions demand. Designed as direct replacements for specified fitments.

- 1. 29400020** High-Flow – Multi-fit. Fits '07-'22 XL, '99-'07 Dyna®, '00-'15 Softail® and '99-'07 Touring models equipped with High-Flow Air Cleaner Kits. Replacement for P/N 29442-99E.
- 2. 29400355** High-Flow – Multi-fit. Fits '18-later Softail and '17-later Touring and Trike models equipped with round High-Flow Air Cleaner P/N 29400355 or 29400356.
- 3. 29400019** High-Flow – Touring. Fits '16-'17 Softail and '08-'16 Touring and Trike models equipped with High-Flow Air Cleaner Kits. Replacement for P/N 29244-08.
- 4. 29400247** High-Flow – Wedge Milwaukee-Eight® Engine. Fits '17-'24 Touring and '17-later Trike models equipped with Wedge High-Flow Air Cleaner Kit P/N 29400245 or 29400246.
- 5. 29400065** Extreme Billet. Fits '15-'20 XG, '16-'17 Softail and '08-'16 Touring and Trike models equipped with Extreme Billet Agitator and Chisel Air Cleaner Kits.
- 5. 29400359** Extreme. Fits '18-later Softail and '17-later Touring and Trike models equipped with round High-Flow Air Cleaner P/N 29400357.
- 5. 29400118** Extreme Billet & Rail. Fits '07-'22 XL, '08-'17 Dyna and '08-'15 Softail and models equipped with Extreme Billet Chisel and Agitator or Rail Collection Air Cleaner Kits.

A. SCREAMIN' EAGLE HIGH-FLO K&N REPLACEMENT AIR FILTER ELEMENT – HEAVY BREATHER

A. SCREAMIN' EAGLE HIGH-FLO K&N REPLACEMENT AIR FILTER ELEMENT – MILWAUKEE-EIGHT HEAVY BREATHER

- 6. 29400022A** Ventilator – Multi-fit. Fits models equipped with Twin Cam Ventilator and Extreme Billet Ventilator Performance Air Cleaner Kits. Replacement for P/N 29670-09.
- 7. 29400293** Ventilator – Milwaukee-Eight Engine. Fits '18-later Softail, '17-later Touring and Trike models equipped with Ventilator Air Cleaner P/N 29400298 or 29400299.
- 8. 29424-05B** Heavy Breather – Multi-fit, Chrome. Fits models equipped with Heavy Breather Kit P/N 29098-09, 29299-08, 29080-09 or 29264-08.
- 8. 29702-08B** Heavy Breather – Touring, Chrome. Fits models equipped with Heavy Breather Kit P/N 29006-09B, 29253-08B, 29000065 or 29400105.
- 29400297** Heavy Breather – Touring, Black. Fits '16-'17 FXDLS and models equipped with Heavy Breather Kit P/N 29006-09B, 29253-08B, 29000065 or 29400105.
- 9. 29400141** Heavy Breather Elite, Chrome. Fits models equipped with Screamin' Eagle® Heavy Breather Elite Performance Air Cleaner Kit P/N 29400407 and 29400406.
- 27300139** Heavy Breather Elite, Black. Replacement air filter for models equipped with Screamin' Eagle Heavy Breather Elite Performance Air Cleaner Kit P/N 29400285.
- 10. 29400276** Heavy Breather – Milwaukee-Eight Engine, Black. Fits '18-'24 Softail, '17-'25 Touring and Trike models with Heavy Breather Kits P/N 29400263 or 29400264 and '22-later Revolution® Max models equipped with Heavy Breather P/N 29400440 or 29400442.
- 11. 29400275** Heavy Breather – Milwaukee-Eight Engine, Chrome. Fits '18-'24 Softail, '17-'25 Touring and Trike models with Heavy Breather Kits P/N 29400263 or 29400264 and '22-later Revolution Max models equipped with Heavy Breather P/N 29400440 or 29400442.

SCREAMIN' EAGLE

304 SCREAMIN' EAGLE®

Spark Plugs

A. SCREAMIN' EAGLE® PERFORMANCE SPARK PLUGS

Screamin' Eagle Spark Plugs feature double platinum coating for superior erosion resistance and extended life. The "V" trimmed ground electrode reduces shrouding of the flame front to promote flame propagation, and the fine wire center electrode enhances startups and ignitability. Screamin' Eagle Plugs feature Ribbed Core Technology (RCT) that provides resistance to fouling, and are designed with Original Equipment-style noise suppression to prevent electrical interference with radios and CB communication equipment. Works great in racing applications where rich air/fuel conditions are required. Unique style with Screamin' Eagle logo. Sold in pairs.

Standard Compression Applications

Designed for modified engines including performance carburetors, high-flow air cleaners, camshafts, exhaust systems and ignition systems in conjunction with stock compression ratios.

31600106 Standard Compression Applications.

Fits '99-later Twin Cam-equipped models, and '86-later Evolution® Sportster® 883, 1100 and 1200 models.

31600085 Standard Compression Applications.

Fits '15-'20 XG models and '17-later Milwaukee-Eight® engine equipped models (including Stage I, II, III and IV Upgrades).

31600180 Standard Compression Applications.

Fits '21-later Revolution® Max engine equipped models.

High Compression Applications

These plugs are designed for high-performance applications involving modifications in high-flow air cleaners, camshafts, exhaust, performance heads, ignition components, higher compression ratios above Original Equipment configurations or engines specific for racing applications.

31600105 High Compression Applications.

Fits '99-later Twin Cam-equipped models. '86-'22 XL and XR and Evolution I340 models equipped with Screamin' Eagle Performance Cylinder Heads.

B. SCREAMIN' EAGLE 10MM PHAT SPARK PLUG WIRES – CUT TO LENGTH

Fat 10mm plug wires add dimension and style to your ride. Screamin' Eagle boot design and suppression core wires ensure solid connection and maximum voltage transfer between coil and plugs. Screamin' Eagle script printed along the wire to add style.

32095-98B Black.
Multi-Fit – Cut to length. Fits '86-'03 XL models (except XL1200S), '91-'98 Dyna® models, '85-'99 Softail® models and '80-'84 Touring models.

SCREAMIN' EAGLE® CRATE ENGINE & DRIVE TRAIN COMPONENTS

Fresh from the factory, Harley-Davidson® Crate Engines are the ideal platform for building your high-performance ride. And once you've put your heart and soul into achieving just the type of horsepower and torque numbers you crave, we offer everything you need to get all that power to the pavement.

A. SCREAMIN' EAGLE 135CI STAGE IV PERFORMANCE CRATE ENGINE (16200980 SHOWN)

A. SCREAMIN' EAGLE 135CI STAGE IV PERFORMANCE CRATE ENGINE (16200977 SHOWN)

STAGE IV

Crate Engines

A. SCREAMIN' EAGLE® 135CI STAGE IV PERFORMANCE CRATE ENGINE

For the rider demanding no-compromise performance. This is the most displacement, and the most power, ever created by Harley-Davidson for a street-compliant crate performance engine. Engineered by the pros at Harley-Davidson and built from the bottom up in Milwaukee, this street-tuned 135-cubic-inch Screamin' Eagle Crate Engine is designed to deliver instant arm-stretching torque through the entire rpm range. Made for riders seeking maximum displacement, compression, and flow, it delivers 144 horsepower and 149 ft-lb of torque to the rear wheel! The 135ci engine compression ratio is 11.6:1. Exclusive 135 and Stage IV badging on the cylinder heads, and timer cover to highlight the powerplant.

This street-ready performance motor features the finest Screamin' Eagle components. Many of these new components were informed by extensive testing by the Harley-Davidson Factory Racing Team for the King of the Baggers racing series. The 135ci Crate engine consists of: All-new Screamin' Eagle Extreme CNC-ported cylinder heads, new SE8-550 high-lift cam, new high-compression forged pistons, 68mm throttle body and new CNC-machined Extreme Flow 68mm intake manifold, high-performance cam bearing, high-performance tappets, new patent-protected 4.31" steel sleeve cylinders, 4 5/8" flywheel, 6.8 g/sec fuel injectors, and Screamin' Eagle Pro Billet Cam Plate and Oil Pump.

- We've done your homework. Engineered and tested as a complete collection of high-performance components by the Screamin' Eagle pros at Harley-Davidson. This combination is designed for wide open throttle along with high end RPMs and a significant torque increase from a cruising speed.

- Ready for bolt-in installation in the Original Equipment-style chassis of your Touring bike.

- No special fabrication or engine-mount relocation is required.

- Factory assembled at the Powertrain Operations facility in Milwaukee, Wisconsin.

- Screamin' Eagle products are not available for sale and are not street legal in all countries. Please contact your local dealer for more information.

Fits '26-later Touring, '23-later FLHXSE and FLTRXSE, '24-later FLHX, FLTRX, and FLTRXSTSE and '25-later FLHXU models. Requires separate purchase of Head Pipe P/N 65600177. Requires ECM recalibration with Pro Street Tuner for proper installation. Does not fit California models.

Crate Engines

A. SCREAMIN' EAGLE® 135CI STAGE IV PERFORMANCE CRATE ENGINE - AIR/OIL COOLED

For the rider demanding for no-compromise performance. This is the most displacement, and the most power, ever created by Harley-Davidson for a street-compliant crate performance engine. Engineered by the pros at Harley-Davidson and built from the bottom up in Milwaukee, this street-tuned 135-cubic-inch Screamin' Eagle Crate Engine is designed to run with a wide-open throttle at high engine speeds and provide instant passing power from cruising speed. Made for riders seeking maximum displacement, compression, and flow, it delivers 143 ft-lb of torque to the rear wheel as soon as the throttle is cranked. Stage IV equipped engine includes 135 Stage IV badging on the cylinder heads and timer cover to highlight the powerplant. This street-ready performance motor features the finest Screamin' Eagle components: Screamin' Eagle Extreme CNC-ported cylinder heads, SE8-517 high-lift cam, new high-compression forged pistons, high-performance cam bearing, high-performance tappets, patent-protected 4.31" steel sleeve cylinders, new 4 5/8" flywheel, new 68mm throttle body and CNC-machined 68mm intake manifold, new 6.8 g/sec fuel injectors, and Screamin' Eagle® Pro Billet Cam Plate and Oil Pump.

- We've done your homework. Engineered and tested as a complete collection of high-performance components by the Screamin' Eagle pros at Harley-Davidson. This combination is designed for wide open throttle along with high end RPMs and a significant torque increase from a cruising speed.
- Ready for bolt-in installation in the Original Equipment-style chassis of your Touring bike
- No special fabrication or engine-mount relocation is required
- Factory assembled at the Powertrain Operations facility in Milwaukee, Wisconsin
- Choice of Black or Chrome finish

Fits '21-'25 Touring models equipped with Air/Oil-Cooled Milwaukee-Eight® engine. Does not fit Trike models. Requires separate purchase of Head Pipe P/N 65600177 and Oil Cooler Fan Assist P/N 62700204 or Fan for Factory Oil Cooler P/N 26800195. All models require ECM recalibration with Screamin' Eagle Pro Street Tuner for proper installation. Does not fit California models. Does not fit Center Cooled models.

SCREAMIN' EAGLE

310 SCREAMIN' EAGLE®

Milwaukee-Eight® Engines

A. SCREAMIN' EAGLE® MILWAUKEE-EIGHT® ENGINE 131 CI PERFORMANCE CRATE ENGINE

Leave other riders in the dust with the biggest, most powerful street-compliant crate performance engine Harley-Davidson has ever created. Built from the bottom up in Milwaukee, this street-tuned 131-cubic-inch Screamin' Eagle Crate Engine is designed to run with a wide-open throttle at high engine speeds and provide instant passing power from cruising speed. Made for riders seeking maximum displacement, compression and flow, it delivers 135 ft-lb of torque to the rear wheel as soon as the throttle is cranked. Stage IV equipped engine includes 131 Stage IV badging on the cylinder heads and timer cover to highlight the powerplant. Ready for bolt-in installation in the Original Equipment-style chassis of your Softail® bike. No special fabrication or engine-mount relocation is required. Engine features one-year manufacturer's warranty for unmatched confidence.

49-State U.S. EPA Compliant on select '18-later Softail® Models. Refer to www.H-D.com/Shop for status.

Performance components include:

- Engraved CNC-ported cylinder head with CNC-machined chamber and 1mm larger valves
- SE8-517 high-lift cam
- High-compression 10.7:1 forged pistons.
- High-performance cam bearing
- High-performance tappets
- Patent-protected 4.31" steel sleeve cylinders.
- 64mm throttle body and cast manifold
- 5.5 g/sec fuel injector

Fits '18-'24 Softail models. FXFB and FXFBS models require separate purchase of Screamin' Eagle Softail High-Flow Exhaust System P/N 64900828 or 64900829. '18 107ci models require separate purchase of SE High-Capacity Clutch Plate Kit P/N 37000258. FXDR114 models require the separate purchase of 65600300. All models require ECM calibration with Screamin' Eagle Pro Street Tuner for proper installation. Does not fit California models.

16200341 Black & Chrome.

16200342 Black & Gloss Black.

Milwaukee-Eight 114 Softail Stock vs. 131 Softail Crate Engine w/ Ventilator A/C

Street legal and/or street compliant statements refer to products meeting EPA (49-State) and/or California (50-State) emissions and noise standards in the United States as specified.

The street legal and/or street compliant statements may not apply to markets outside of the United States.

NOTE: Replacement engines must be re-fitted with emission control devices and systems appropriate for the vehicle model and model year in order to ensure emissions compliance. Failure to do so constitutes tampering under U.S. EPA guidelines and can lead to substantial fines and penalties.

Legal for use on public roads only when installed in the specified models. Not legal for use on public roads when installed in models other than the ones specified and not eligible for the P&A warranty when installed in models other than the ones specified. Please see the Parts and Accessories warranty statement and your dealer for more information.

311 SCREAMIN' EAGLE®

Twin Cam SE120ST Crate Motor

B. SCREAMIN' EAGLE® SE120ST STREET PERFORMANCE CRATE MOTOR

This street-tuned 120-cubic-inch Screamin' Eagle Crate Motor takes your bagger from mild to wild. This engine is designed for bolt-in installation in the Original Equipment-style chassis of your Touring bike. No special fabrication or engine mount relocation is required. The crankcase, cylinders and heads are painted black, and feature machined aluminum highlights and chrome covers for a stunning "show-and-go" look. Equipped with the ultimate large bore Screamin' Eagle 58mm Throttle Body (18% larger than stock), this engine is capable of producing 106 horsepower and 117 lb-ft of torque at the rear wheel. Engine features one-year manufacturer's warranty. For best performance results, we recommend combining this engine with your choice of Screamin' Eagle 58mm High-Flow Air Cleaner and the Screamin' Eagle High Flow Exhaust System P/N 64800022.

This engine is 50-State U.S. EPA compliant when used with Original Equipment mufflers or the Screamin' Eagle Street Performance Exhaust System P/N 64800022. All models require ECM calibration (priced separately). U.S. delivered engines include Manufacturer's Statement of Origin (MSO).

Developed and tested in Milwaukee, this motor features the finest Screamin' Eagle components:

- 4.060 big-bore cylinders.
- 4-5/8" stroke SE Pro stroker flywheel and rod assembly.
- 10.5:1 high-compression nickel-plated forged pistons with Teflon® coated skirt.
- Titanium SST piston rings.
- SE-259E high-lift cams.
- Perfect-Fit pushrods.
- SE high-performance lifters.
- CNC-ported MVA heads with automatic compression release.
- Screamin' Eagle Pro High-Flow 58mm EFI Throttle Body, high-flow injectors and manifold clamps.
- Machined lower rocker boxes for valve spring collar clearance.
- Factory-machined engine cases.
- Unique piston oilers for stroker clearance.
- Screamin' Eagle inner crankcase full complement cam needle bearings.
- SE Lefty high-performance crankcase output bearing and nitride bearing race.
- SE Performance spark plugs.
- 120ST cam cover and cylinder head medallions.

19221-15

Fits 50-state '10-'16 Touring models. Does not fit Twin-Cooled™ models. Does not fit Trike. '10 Touring models require Screamin' Eagle Big Twin Compensator Kit P/N 40100061. All models require ECM calibration for proper installation. '10-'13 Touring models can be programmed by Dealer (sold separately). '14-'16 Touring models can be calibrated using the Screamin' Eagle Pro Street Tuner (sold separately).

312 SCREAMIN' EAGLE®

Race Developed Parts

A. SCREAMIN' EAGLE® RACING PRO BILLET CLUTCH BASKET – 46T

A race-proven component for your high-performance Milwaukee-Eight® engine. This Screamin' Eagle Racing Pro Billet Clutch Basket was developed by the Harley-Davidson Factory Race Team competing in the Mission King of the Baggers series. Precision CNC machined from premium 7075-T6 aluminum for superior strength and durability.

- CNC machined from 7075-T6 aluminum for superior strength and durability.
- Hard anodized finish for superior wear resistance.
- Assemble to a new ring gear and bearing enables quicker installation.
- Laser etched Screamin' Eagle logo.

37000402A

Fits '17-later models equipped with Milwaukee-Eight engines.

B. SCREAMIN' EAGLE MILWAUKEE-EIGHT – HEADBOLT KIT

Details matter when building a high-performance engine. Details like these Screamin' Eagle Milwaukee-Eight Head Bolts – made from 8740 chromoly to be 23 percent stronger than stock bolts. The ideal upgrade for big-displacement and high-compression racing applications or Stage III or Stage IV builds. Lock down your top end, for the long run.

- Black oxide finish with Screamin' Eagle logo provides corrosion resistance and showcases performance.
- Premium 8740 chromoly steel bolts provide a 23% increase in ultimate strength and 23% increase in yield strength compared to Original Equipment head bolts for desirable clamp load on a higher-compression engine.
- Cost savings – these bolts may be reused if the top end is disassembled for upgrades or service
- Perfect upgrade during a Screamin' Eagle Stage III or Stage IV installation.

10400069

Fits '17-later Milwaukee-Eight engines.

A. SCREAMIN' EAGLE RACING PRO BILLET CLUTCH BASKET – 46T

B. SCREAMIN' EAGLE MILWAUKEE-EIGHT – HEADBOLT KIT

C. SCREAMIN' EAGLE RACING KING 6 TRANSMISSION

C. SCREAMIN' EAGLE RACING KING 6 TRANSMISSION

SCREAMIN' EAGLE® 313

Race Developed Parts

C. SCREAMIN' EAGLE® RACING KING 6 TRANSMISSION

Born from racing, the Screamin' Eagle Racing - King 6 is a battle-tested performance transmission developed by the Harley-Davidson Factory Race Team competing in the Mission King of the Baggers series. Engineered for enhanced gear engagement and durability. Key features include modified back-cut angles on the shift dogs to improve gear engagement and super premium heat treat and shot peening on gears and shafts ensure race-tough strength and durability. You'll enjoy the smooth shifting performance and know this transmission is built for extreme performance in mind.

- Bolt-in installation.
- Super premium heat treated and shot peened gears ensure race-tough strength and durability.
- Torque capacity increased by +25% over the Original Equipment transmission.
- Smooth gear engagement for quicker shifts.
- Back cut gears and shift lug/pockets undercut for improved engagement and reduced friction.
- Upgraded bearings Screamin' Eagle branding on bearing door (P/N 36300037 only).
- Installation kit (P/N 36300043) includes gaskets, O-rings, main drive seal and bearing, and inner primary bearing race (sold separately).
- Transmission gears and shafts may have a blue coating. This blue coating is a manufacturing aid and will not affect King 6 Transmission or Oil Performance. Upon first fluid change the oil may have a slight discoloration.

36300041

Fits '23-later Center-Cooled Touring models and '25-later Softail® models. Installation requires separate purchase of Gasket Installation Kit P/N 36300043.

36300037

Fits '07-'24 Touring, '07-'24 Softail and '06-'17 Dyna® models. Does not fit '23-Later Center-Cooled Touring models. Installation requires separate purchase of Gasket Installation Kit P/N 36300043.

D. SCREAMIN' EAGLE RACING GASKET INSTALLATION KIT FOR KING 6 TRANSMISSIONS

Installation kit includes gaskets, O-rings, main drive seal and bearing, and inner primary bearing race.

36300043

Required for installation of Screamin' Eagle King-6 transmission P/N 36300037 or 36300041.

D. SCREAMIN' EAGLE RACING GASKET INSTALLATION KIT FOR KING 6 TRANSMISSIONS

NOTE: There is no warranty on exhaust pipes and mufflers with regard to any discoloration. Blueing is caused by tuning characteristics, cam timing, carburetor jetting, over-heating, etc. and is not caused by defective manufacturing.

Street legal and/or street compliant statements refer to product meeting 50-State emissions and noise standards in the United States.

The street legal and/or street compliant statements may not apply to markets outside of the United States.

314 SCREAMIN' EAGLE®

Clutch & Drivetrain

A. SCREAMIN' EAGLE® HIGH CAPACITY CLUTCH KIT – MILWAUKEE-EIGHT® ENGINE

The Screamin' Eagle High Capacity Clutch Kit increases the drivetrain's ability to reliably support high torque applications without significantly increasing lever effort. Designed to fit in the stock clutch basket, this kit provides smooth shifting, progressive engagement, and works with the factory Assist and Slip clutch system to keep clutch lever effort similar to the stock levels. Kit contains 10 fiber clutch plates and 10 contact plates – one more than Original Equipment – and 3-1200 Newton clutch springs. This combination provides 11% more clutch surface area for greater power handling capability.

37000287

Fits '18-later Softail® and '17-later Touring models.

B. SCREAMIN' EAGLE HIGH CAPACITY CLUTCH PLATE KIT – MILWAUKEE-EIGHT ENGINE

Replacement clutch plates for the Screamin' Eagle High Capacity Clutch Kit P/N 37000287. Kit includes 9 fiber friction plates and 10 contact plates.

37000258

Fits '18-later Softail and '17-later Touring models.

C. MILWAUKEE-EIGHT ENGINE CLUTCH SPRINGS – 1275N

High-tension springs are engineered to add additional clutch capacity in high torque and high horsepower applications. Kit includes 3-1275 Newton (N) coil springs, and is designed to complement the Screamin' Eagle High Capacity Clutch Plate Kit P/N 37000258. When combined with the High Capacity Clutch Plate Kit, torque capacity is increased to the maximum level available. Installation will increase capacity and lever effort. Springs can be installed without removing the outer primary cover.

37000286

Fits '18-later Softail and '17-later Touring models.

D. MILWAUKEE-EIGHT ENGINE CLUTCH SPRINGS – 1200N

Replacement clutch springs for the Screamin' Eagle High Capacity Clutch Kit P/N 37000287. Kit includes 3-1200 Newton (N) coiled clutch springs. Installation of these springs with Original Equipment clutch plates will increase clutch capacity and lever effort. Springs can be installed without removing the outer primary cover. Included in Milwaukee-Eight® Stage III and IV Kits.

37000288

Fits '18-later Softail and '17-later Touring models.

A. SCREAMIN' EAGLE HIGH CAPACITY CLUTCH KIT – MILWAUKEE-EIGHT ENGINE

Configuration	Max Crankshaft Torque (ft. lbs.)	% Increase in Torque Capacity Over Milwaukee-Eight® 107 OE Clutch	Approximately Lever Effort (lb)
Milwaukee-Eight 107Cl Original Equipment (9-Disk/1100N Spring)	125	—	14.6
9 Disk/1200N Spring	134	7.2%	16
9 Disk/1275 Spring	143	14.4%	17
Milwaukee-Eight 114Cl Original Equipment (10 Disk/1100N Spring) (P/N 37000287)	139	11.2%	14.6
Screamin' Eagle High Capacity Clutch Kit 10 Disk/1200N Spring	150	20%	16
10 Disk/1275N Spring	160	28%	17

B. SCREAMIN' EAGLE HIGH CAPACITY CLUTCH PLATE KIT – MILWAUKEE-EIGHT ENGINE

C. MILWAUKEE-EIGHT ENGINE CLUTCH SPRINGS – 1275N

D. MILWAUKEE-EIGHT ENGINE CLUTCH SPRINGS – 1200N

E. SCREAMIN' EAGLE BIG TWIN COMPENSATOR

F. SCREAMIN' EAGLE VARIABLE PRESSURE CLUTCH

SCREAMIN' EAGLE® 315

Clutch & Drivetrain

E. SCREAMIN' EAGLE® BIG TWIN COMPENSATOR

This premium compensator has been engineered with heavier springs and increased travel to support the high torque output associated with high-compression race and large displacement engines. Designed to outperform the Original Equipment compensator, this unit helps protect the engine and driveline components during harsh drag race launches. Compensator features improved oil passages, oil deflectors and a needle bearing thrust washer that improves the overall operation of these components.

42200064A

Fits '12-'13 Dyna®, '12-'13 Softail® (except FXCW, FXCWC, FXSB, FXSBSE and '09 FXSTSSE), '11-'13 Touring and '09-'13 Trike models. Original Equipment on '14-'17 Dyna, Softail and '14-'16 Touring models. Requires separate purchase of Installation Adhesive Kit P/N 11100088.

40100061

Fits '06-'11 Dyna, '07-'11 Softail (except FXCW and FXCWC), '07-'10 Touring, and '07-'09 CVO™ models (except '09 FXSTSSE) models. Does not fit Trike. Requires separate purchase of Installation Adhesive Kit P/N 11100088. Kit includes Rotor Assembly P/N 30041-08. Installation on '06 Dyna models require separate purchase of '07-style stator.

42200095A

Fits '08-'12 FXCWC and '09 FXSTSSE models and '13-later FXSB models. If P/N 40274-08A has been installed previously, the rotor shell, P/N 30041-08A is not required.

F. SCREAMIN' EAGLE VARIABLE PRESSURE CLUTCH

Get more performance from the Original Equipment clutch. The Screamin' Eagle Variable Pressure Clutch is designed to help put the added power from a Screamin' Eagle Stage Kit to the pavement. This bolt-on kit harnesses the centrifugal force of spinning weights to increase the clutch capacity as engine speed increases. The mechanism applies increasing pressure to the stock clutch pressure plate as RPM rises. The result: high torque-handling capabilities without increasing clutch lever effort at idle. The Variable Pressure Clutch also provides smoother clutch disengagement at lower speed. Kit fits behind most stock derby covers with no modifications. See installation manual for additional accessory derby cover fitment information.

To match the performance demands of your engine, team the Variable Pressure Clutch with your choice of clutch diaphragm springs. We recommend the higher-capacity Screamin' Eagle Diaphragm Spring P/N 37951-98 for major performance upgrades.

	Lever Effort	Torque Capacity
Original Equipment Spring	Same as stock	120 ft-lbs
SE Spring P/N 37951-98	35% greater than stock	153 ft-lbs

37000121A

Fits '99-'17 Evolution® 1340 and Twin Cam-equipped models. Will not fit '16-later Touring and Trike models, '15-later FLHTCUL or FLHTKL models or '07-later Touring or Trike models equipped with Narrow-Profile Outer Primary Cover P/N 25700385 or 25700438. Will not fit '13-later CVO models with hydraulic actuated clutch, '16-'17 FXDLS, FLSS and FLSTFBS, or '14-later Touring and Trike models equipped with Screamin' Eagle A&S Clutch Kit P/N 37000026. Derby Covers P/N 25001-03, 25441-04A, 25770-99, 25331-10, 25339-10, 25700250 and 25700062 require Spacer Kit P/N 37000123. Does not fit Derby Covers P/N 25347-02 or 25345-01.

316 SCREAMIN' EAGLE®

Clutch & Drivetrain

A. SCREAMIN' EAGLE® TWIN CAM PERFORMANCE ASSIST AND SLIP (A&S) CLUTCH KIT

Developed for the high-thrust 110CI engine featured as Original Equipment on '14-later CVO™ models, this A&S clutch provides significantly increased torque-handling capacity (135lb/ft). Clutch is designed to improve engagement grip and provides minor slippage during downshifting to reduce shock to the power train. Reduces hand lever pull effort by over 1 pound. Complete kit features improved clutch plates for enhanced wear resistance and is the perfect addition when installing a high-output Screamin' Eagle Stage Kit.

37000026

Fits '14-'16 Touring and Trike models with hydraulic clutch actuator. Original Equipment on FXDLS, FLSS, FLSTBS and FXSE models.

B. SCREAMIN' EAGLE PERFORMANCE CLUTCH FRICTION DISC KIT

Newly developed friction material delivers longer life than Original Equipment friction discs. Kit includes new precision-machined flat steel plates. This Friction Disc Kit is a perfect match for the Screamin' Eagle Twin Cam Performance Race Clutch Hub Kit P/N 37976-08.

37980-10

Fits '99-'17 Twin Cam-equipped models and '98-'99 Evolution® 1340-equipped models. Will not fit '13-'16 CVO™ Touring models with hydraulic actuated clutch or, '15-'16 FLHTCUL and FLHTKL, '16-'17 FXDLS, FLSS, FLSTFBS, FXSE or '13-'16 CVO Touring models with hydraulic actuated clutch, '15-'16 FLHTCUL and FLHTKL or '14-'16 Touring and Trike models equipped with Screamin' Eagle A&S Clutch Kit P/N 37000026.

C. HEAVY DUTY CLUTCH SPRING FOR STOCK CLUTCH

37951-98

Fits '99-'17 Twin Cam-equipped models and '98-'99 Evolution 1340-equipped models. Will not fit '16-'17 FXDLS, FLSS, FLSTFBS and FXSE or '13-'16 CVO Touring models with hydraulic actuated clutch, or '15-'16 FLHTCUL and FLHTKL, '14-'16 Touring and Trike models equipped with Screamin' Eagle A&S Clutch Kit P/N 37000026.

D. SCREAMIN' EAGLE PERFORMANCE CLUTCH KIT

Performance Clutch Kit converts the 8-plate clutch to a 9-plate design. The surface area is increased by 13% and the spring rate is increased by 10% for a combination that can handle over 115 ft-lbs of torque at the crank, a 23% increase over the stock-rated capacity. Kit includes Kevlar® fiber-based friction discs and performance clutch spring.

38002-04

Fits '91-'22 XL and '94-'97 Evolution 1340-equipped models.

E. SCREAMIN' EAGLE PERFORMANCE SLIPPER CLUTCH FOR VRSC™ MODELS

This clutch offers reduced lever effort and improved performance. The unique "slip and assist" ramp system opens the two halves of the clutch hub slightly during high loads to the drivetrain, allowing a moderate slip that reduces shock to the drivetrain during rapid downshifting. The resulting reduction in wheel hop allows maximum contact between the tire and the road in wet or slippery conditions. Clutch lever effort is also reduced by 20% in 1130cc and 30% on 1250cc applications.

37938-08KA

Fits '02-'07 VRSC™ models.

A. SCREAMIN' EAGLE TWIN CAM PERFORMANCE ASSIST AND SLIP CLUTCH KIT

B. SCREAMIN' EAGLE PERFORMANCE CLUTCH FRICTION DISC KIT

C. HEAVY DUTY CLUTCH SPRING FOR STOCK CLUTCH

F. TWIN CAM SHORTBLOCK ASSEMBLY – DYNA AND TOURING

F. TWIN CAM SHORTBLOCK ASSEMBLY – SOFTAIL

SCREAMIN' EAGLE® 317

Shortblock Program

SHORT & LONGBLOCK PROGRAM

When it comes time to repower your motorcycle, the first stop should be your local Harley® Dealer. They can set you up with a replacement shortblock or longblock engine that is manufactured from 100% new Original Equipment parts and subjected to the same rigorous testing as all Harley® engines. Plus, all longblock engines feature a one-year factory warranty and your original VIN stamped on the case.

F. SHORTBLOCK ASSEMBLY

The perfect starting point for building the engine of your dreams. Engine shortblocks are manufactured and assembled on Harley-Davidson's main engine assembly line for exceptional quality and reliability. Shortblock cases, flywheels, bearings and rods are preassembled and ready for your custom build. Kit includes current spec Original Equipment cam plate, oil pump, cam drive components and the gaskets, seals and most of the hardware required to complete the engine and install it (not all components shown). You select your cylinders, heads, cams, covers and other top-end components. Choose one of the Screamin' Eagle Stage kits to incorporate reliable performance and pick from our decorative engine covers to customize the look. Shortblock Assemblies are stamped with a new VIN and include MSO (Manufacturers Statement of Origin). The MSO is for Domestic only. Kits ship directly from the factory within 3-5 days. Assembly comes stamped with a new VIN on Twin Cam Kits. (For VIN matching shortblock assemblies see the appropriate Service Parts Catalog.)

Twin Cam Engine

16200070 Black 96CI/103CI.
Fits '07-'17 Dyna® (except FXDLS), and '07-'16 Touring and Trike models (except CVO™ models).

16200071 Black 96CI/103CI.
Fits '07-'17 Softail® models (except FLSS, FLSTFBS and CVO).

Milwaukee-Eight® Engine (not shown)

See your Dealer for details.

NOTE: Replacement engines must be re-fitted with emission control devices and systems appropriate for the vehicle model and model year in order to ensure emissions compliance. Failure to do so constitutes tampering under U.S. EPA guidelines and can lead to substantial fines and penalties.

Legal for use on public roads only when installed in the specified models. Not legal for use on public roads when installed in models other than the ones specified and not eligible for the P&A warranty when installed in models other than the ones specified. Please see the Parts and Accessories warranty statement and your dealer for more information.
