## A. SPECTRA GLO™ LED LIGHTING CONTROLLER KIT\*

Nothing draws attention at the curb like a well-lighted bike. Whether you are looking for a rich neon glow or a pulsing crowd pleaser, the Harley-Davidson® Spectra Glo™ Lighting System brings ultra-bright LED lighting to your ride. The Spectra Glo System utilizes RGB LED technology to produce over 500 shades of brilliant color, all controllable with a waterproof handheld wireless fob. Simply use one button to select one of the 7 base colors, and then dial in the shade you desire. You can choose to match the color of your bike, or add a contrasting tone from the wide spectrum of colors. Once you select a color, you can choose between solid, flash or fade modes with a tap of the remote control.

At the core of the Spectra Glo system is the Lighting Controller. The compact waterproof controller box is hidden beneath the seat, and is activated with the included wireless remote fob. The Lighting Controller is the hub for all the added Spectra Glo light options, and syncs the color and mode selection between all the LEDs. Designed specifically for Harley-Davidson® motorcycles, the controller will not interfere with the bike's electronics. The low draw LED lamps have a one-hour auto-shutoff feature to preserve the battery. Kit includes Controller, Remote Control Fob with battery and plug-in wiring harness.

## A. ELECTRA GLO™ ILLUMINATED FAIRING ACCENT TRIM

Sweeping trim dresses the Electra Glide® Batwing Fairing for a distinctive, yet functional look. The contour-hugging spear and smoked lenses hide LED lamps that glow white as running lamps when the ignition is on and function as auxiliary amber sequential directional indicators when the turn signals are activated. The wiring is concealed inside the fairing for a clean, custom appearance. Complete kit includes mounting template and all necessary installation hardware. Trim may cover pinstripes or two-tone paint lines on some vehicles. Check appearance prior to installation.

Fits '14-'25 Electra Glide, Street Glide® (except '23-later FLHXSE, '24-later FLHX and '25-later FLHXU), Ultra Limited®, and Tri Glide® models. Fitment on vehicles with two-tone paint, pinstriped, or CVO™ models is not recommended due to the potential for the accent lights to overlap pinstripes or paint lines.

**68000190A** Chrome.

## B. ELECTRA GLO FAIRING EDGE LIGHT KIT

Amplify your ride. The Electra Glo Fairing Edge Light kit adds forward-facing white LED accent lights to the front profile of your bike. Formed to follow the contour of the batwing fairing, the slim strip of lamps adds a strong visual element to the iconic shape of the Electra Glide model. The electrifying appearance adds conspicuity to get you noticed and the smoked housing conceals the lights and blends into the background when switched off. Simple "plug in" connections with no cutting or splicing of wires required.
